

DIRECTIONS FOR USE
 Do not use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR NEWLY FILLED POOLS:
 SEA/TAB 73 is added directly to the pool water at the rate of one pound per 8000 gallons to establish a residual chlorine value of 1.0-1.5 ppm. This dosage should be repeated until the test results for residual chlorine are in the range of 1.0-1.5 ppm. Sun-Screen protection and Stabilization of chlorine in the pool is provided by stabilizer according to label instructions.

REGULAR MAINTENANCE TREATMENT
 Adjust whatever proportioning mechanism that might be used to assure a constant treatment level of 1.0-2.0 ppm available chlorine in the pool water (normally 1-2 oz. of this product per 10,000 gallons daily). The chlorine level should be checked daily with the use of a suitable test kit. Due to the daily changes in weather, temperature, and bather load, the frequency and the amount of SEA/TAB 73 added will vary. Pool water pH must be adjusted and maintained regularly in the pH range of 7.2-7.8. For each pound of SEA/TAB 73, a half-pound of SEABOARD PLUS IS ADDED FOR pH CONTROL.

NET WT. 4 LBS.

SPARKLING WATER-SIMPLY & EASILY

SEA/TAB 73

ACTIVE INGREDIENTS:	
*Trichloro-s-triazinetrione	99.0%
INERT INGREDIENTS:	1.0%
TOTAL	100.0%
*Available Chlorine 85%	

DANGER

PRECAUTION: Never put tablets directly into pool, as they will bleach the liner or paint surface.
 EPA REG. NO. 7152-36

KEEP OUT OF REACH OF CHILDREN

DANGER

PRACTICAL TREATMENT (FIRST AID): If swallowed feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.
 If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes.
 If irritation persists, get medical attention.
 If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS**

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT: Strong Oxidizing Agent. Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area only in a safe place.
