DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR NEWLY FILLED POOLS:

SEAJCURE is added directly to the pool water at the rate of one pound per 8000 gallons to establish a residual chlorine value of 1.0-1.5 ppm. This dosage should be repeated until the test results for residual chlorine are in the range of 1.0-1.5 ppm. Sun-Screen protection and Stabilization of chlorine in the pool is provided by stabilizer according to label instructions.

REGULAR MAINTENANCE TREATMENT

Adjust what ever proportioning mechanism that might be used to assure a constant treatment level of 1.0-2.0 ppm available chlorine in the pool water (normally 1-2 oz. of this product per 10,000 gallons daily). The chlorine level should be checked daily with the use of a suitable test kit. Due to the daily changes in weather, temperature, and bather load, the frequency and the amount of SLO-TAB 8 added will vary. Pool water pH must be adjusted and maintained regularly in the pH range of 7.2-7.8. For each pound of SLO-TAB 8, a half-pound of SEABOARD PLUS IS ADDED FOR pH CONTROL.

NET WT. 4 LBS.

SPARKLING WATER-SIMPLY & EASILY

SEABOARD SLO-TAB 8

ACTIVE INGREDIENTS:

*Trichloro-s-triazinetrione 92.0%

INERT INGREDIENTS: 1.3%

TOTAL: 100.0%

*Available Chlorine 85%

DANGER

PRECAUTION: Never put tablets directly into pool, as they will bleach the liner or paint surface.
EPA REG. NO. 7152-39

EPA EST NO 7152-MJ-1

**KEEP OUT OF REACH OF CHILDREN
DANGER**

PRACTICAL TREATMENT (FIRST AID): If swallowed feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.
If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes.
If irritation persists, get medical attention.
If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT: Strong Oxidizing Agent. Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in a safe place.
