NET CONTENTS: 16 TABLETS

Days: hours: for use:

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

ALGIZIDE Tablets are added to the skimmer for algae control.

Preventive Algae Treatment: Add four tablets (1 1/3 oz) per 10,000 gallons of water that is visibly clean. Repeat treatment every 2 to 10 weeks, or when algae reappears.

Green Algae Control: Add six Tablets (2 oz.) per 10,000 gallons if there is visible algae growth. Use Preventive maintenance treatment seven days later.

Black Algae Control: Add eight Tablets (2 2/3 oz) per 10,000 gallons if visible algae growth is present. Seven days later, Preventive Maintenance Treatment should be initiated.

Calculation of Water Volume.

To determine the gallons of water in a swimming pool with a rectangular or square surface multiply in feet the length x width x average depth x 7.5. If the surface of the body of water is oval or round, multiply the length x width x average depth x 5.9..
