Ms. Heather R. Bjomson  
 Seaboard Industries  
 185 Van Winkle Avenue  
 Hawthorne, N.J. 07507

Subject: Day-Tabs  
 EPA Registration Number 7152-87  
 Application Date: 4/22/05  
 Receipt Date: 4/22/05

Dear Ms. Bjomson:

The following amendment submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To revise your label in accordance with PR Notice 2001-1.

**Conditions**

- Revise the "Precautionary Statements" to read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

- Include the following re-entry statement: "Reentry into treated pools is prohibited above levels of 3 ppm due to risk of bodily injury.
- Under the heading "Directions for Use" add a description of what the product is being used for (e.g. algacide for swimming pools, spas, outdoor hot tubs).

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended, for the pesticide,  
registered under EPA Reg. No.

7152-87

<b>FIRST AID</b>	
<b>If in eyes</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15 – 20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>If on skin or clothing</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15 – 20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>If swallowed</b>	<ul style="list-style-type: none"> <li>• Call poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
<b>If inhaled</b>	<ul style="list-style-type: none"> <li>• Move person to fresh air.</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.</li> <li>• Call a poison control center or doctor for further treatment advice.</li> </ul>
<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency assistance involving chemicals call CHEMTREC day or night at: 1-800-424-9300.</p> <p><b>NOTE TO PHYSICIAN:</b> Probable mucosal damage may contraindicate the use of gastric lavage.</p>	

### PRECAUTIONARY STATEMENTS

**Hazards to Humans and Domestic Animals.**

**DANGER: CORROSIVE.** Causes irreversible eye damage. Do not get in eyes or on clothing. Wear safety glasses or goggles. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public water unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water board or regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARDS**

**STRONG OXIDIZING AGENT:** Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces etc.) will release chlorine gas which is irritation to eyes, lungs and mucous membranes.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **Precaution: Never add directly into pool as it will bleach the liner or painted surface.** Contact between product in undissolved state and vinyl liners, painted surfaces or other property in or around the pool will result in permanent bleaching of the color.

1. Adjust water pH to 7.2 – 7.6 as determined by a test kit. For pools with copper plumbing best pH factor is 7.6 - 7.8.
2. If the pool has not been previously stabilized add conditioner and Stabilizer (cyanuric acid). Follow the directions for use on the label for that product.
3. Add 3 tablets for every 10,000 gallons of pool water. Each DAY-TAB weighs 65 grams. This should be adjusted to satisfy the demand of the water and establish chlorine residual. If there is no chlorine residual on the following day, repeat dosage until chlorine is found on following day before feeding at least the amount of 1.0 ppm to 1.5 ppm as determined by a test kit. During heat waves or periods of heavy bathing load, more tablets will be required to maintain chlorine residual. Also check pH to keep in proper range, as pH has a direct affect on chlorine action. These tablets reduce the need for addition of chemicals to adjust pH, but pH should be brought back into range if it falls or climbs due to rain, make up water, wind blown dust, or any reason. Add tablets through skimmer or in appropriate floating chlorinator. Tablets will dissolve in approximately 15 minutes.

**STORAGE AND DISPOSAL**

Do not contaminate food or feed by storage, disposal or cleaning of equipment.

**Pesticide Storage:** Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration.

**Pesticide Disposal:** In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer.

**Container Disposal:** Do not reuse empty container but place in trash collection.

**Optional Marketing Claims**

- For Sparkling Water
- Fast & Easy
