OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Subject: DAY TABS
EPA Reg.#: 7152-87
Application Date: April 18, 2014
Receipt Date: April 18, 2014

JUN 24 2014

Dear Ms. Downs:

This acknowledges the receipt of your Amendment application dated April 18, 2014 in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended.

Proposed Amendment:

Minor amendments to Precautionary Statement and update the Storage & Disposal statement for "DAY TABS" product label (EPA Reg#7152-87). The proposed label dated April 18, 2014.

General Comment:

Based on the review of the material submitted, the amendment for "DAY TABS" product label (EPA Reg# 7152-87) is **acceptable**.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

This latest amended label and a copy of this letter have been inserted in your file for future reference.

If you have any questions or comments concerning this letter, please contact David Liem by email at liem.david@epa.gov or call (703) 305-1285.

Sincerely,

Demson Fuller
Product Manager (32)
Regulatory Management Branch II
Antimicrobials Division (7510P)

|--|--|
| If in eyes | <ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice. |
| If on skin or clothing | <ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 – 20 minutes. • Call a poison control center or doctor for treatment advice. |
| If swallowed | <ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person. |
| If inhaled | <ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice. |
| <p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency assistance involving chemicals call CHEMTREC day or night at: 1-800-424-9300.</p> <p>NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.</p> | |

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals.

DANGER: Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public water unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water board or regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces etc.) will release chlorine gas which is irritation to eyes, lungs and mucous membranes. - - - -

DIRECTIONS FOR USE

Sanitizer for Swimming Pools

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **Precaution: Never add directly into pool as it will bleach the liner or painted surface.** Contact between product in undissolved state and vinyl liners, painted surfaces or other property in or around the pool will result in permanent bleaching of the color. Reentry into treated pools is prohibited above levels of 3 ppm due to risk of bodily injury.

1. Adjust water pH to 7.2 – 7.6 as determined by a test kit. For pools with copper plumbing best pH factor is 7.6 - 7.8.
2. If the pool has not been previously stabilized add conditioner and Stabilizer (cyanuric acid). Follow the directions for use on the label for that product.
3. Add 3 tablets for every 10,000 gallons of pool water. Each DAY-TAB weighs 65 grams. This should be adjusted to satisfy the demand of the water and establish chlorine residual. If there is no chlorine residual on the following day, repeat dosage until chlorine is found on following day before feeding at least the amount of 1.0 ppm to 1.5 ppm as determined by a test kit. During heat waves or periods of heavy bathing load, more tablets will be required to maintain chlorine residual. Also check pH to keep in proper range, as pH has a direct affect on chlorine action. These tablets reduce the need for addition of chemicals to adjust pH, but pH should be brought back into range if it falls or climbs due to rain, make up water, wind blown dust, or any reason. Add tablets through skimmer or in appropriate floating chlorinator. Tablets will dissolve in approximately 15 minutes.

4/4

STORAGE AND DISPOSAL

Do not contaminate food or feed by storage, disposal or cleaning of equipment.

Pesticide Storage: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration.

Pesticide Disposal: In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
