

(D73-155)

For Household Use Only

**ACTIVE INGREDIENTS:**  
Diatomaceous Earth, 10% of Content  
Sulfur, 10% of Content  
Naphthalene, 10% of Content  
Cinnamon Oil, 10% of Content

**INERT INGREDIENTS:**

Total  
Ammonium Polyphosphate, 10% of Content  
Lavender oil, 1% of Content  
Musk oil, 1% of Content

**DIRECTIONS**

SHAKE WELL BEFORE SPRAYING.  
APPLY DIRECTLY TO INSECTS.

**INDOORS:** For Flying Insects

For Flying Insects: Spray directly onto insects. For crawling insects, spray onto surface of the area where they are found. For crawling insects, spray onto foliage, stems, leaves, etc., where insects are found. Repeat as needed.

For Crawling Insects: Spray directly onto insects. For crawling insects, spray onto foliage, stems, leaves, etc., where insects are found. Repeat as needed.

For Garden Insects: Spray directly onto insects. For crawling insects, spray onto foliage, stems, leaves, etc., where insects are found. Repeat as needed.

To Kill Aphids, Egg Lays, or Garden Web-Weaving, Cabbage, Corn, Celery, Cucumber, and Grapes: Spray surfaces and areas where insects hide. Try to coat as many insects as possible. Repeat as needed.

Outdoors: For Insects on Trees, Apples, Cherries, Chrysanthemums, Dahlias, Delphiniums, Gardenias, Irises, Marigolds, Petunias, Roses, and Sunflowers. Also for Insects on the Edges of Lawns, Evergreens, and Smaller Residential Deciduous Trees, Shrubs and Vines.

When sprayed directly onto plants, this spray kills crawling insects: Aphids, Flea Beetles, Scattered Moths, Thripss, and Tucey Bugs. It also chews insects: Armyworm Larvae, Mexican Bean Beetles, Climbing Cutworms, and Japanese Beetles when spray directly.

For best results spray on insects during a cloudy day when air is still, or on a warm, moist, breezy day. If spray is applied to foliage, foliage must be dry before spraying at the rate of 1 lb. per acre. For heavy infestations, repeat when needed. Spray with caution on young plants and new growth, especially when temperature exceed 90°F.

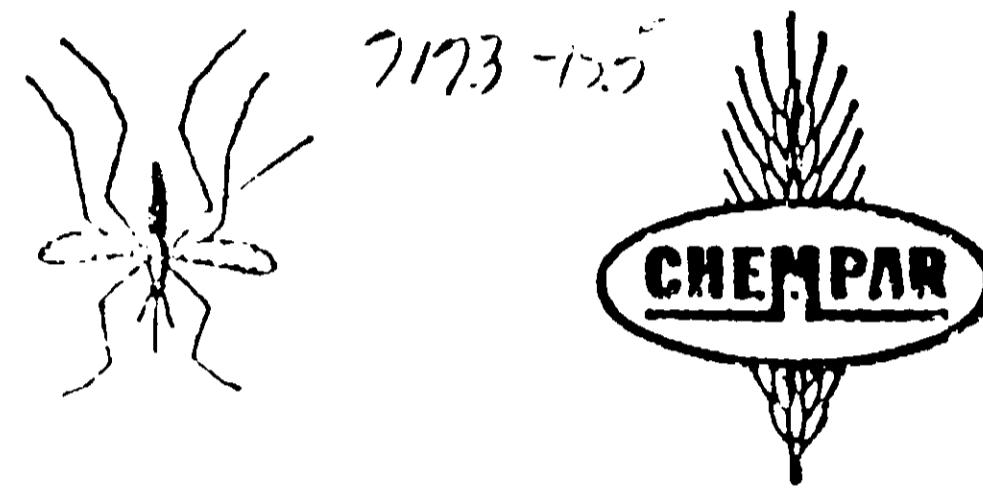

This product may be used to control insects in patios and in the yard and garden, backyards, sheds, garages, and other small buildings. Insect life in the area should be sprayed with the force allowing the fan to drift into bushes and other places where insects bathe. Repeat as needed.

**WARNING:** Contents under pressure. Do not puncture. Do not expose to temperatures above 120°F. Do not heat or open fire. Expose to temperatures above 120°F. Do not expose to fire. Never pour contents into fire or incinerator. COVER ALL EDGES OF SPRAYER. COVER FOOD ROWS. REMOVE BIRDS. COVER ALL LEAVES OR CANOPY WITH A FINE MESH AROUND FOOD FREQUENTLY SO THAT THEY ARE PROTECTED FROM DIRECT CONTACT DURING SPRAY.
