ROZOL

ROZOL
DIRECTIONS FOR USE
GENERAL CURATIVE ACTION
Apply with a brush, with the tip of the brush, to the following

Restrictions: For use against the mouse in homes, industrial and agricultural buildings and similar man-made structures. Treated baits must be placed in tamper-proof bait boxes in locations not accessible to children, pets, domestic animals or wildlife. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

Selection of treatment areas: Determine areas where mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in baseboards, in corners and concealed places, between floors and walls, in locations where rodents or their signs have been observed.

Application directions: Apply 1/4 to 1/2 oz. (about one level tablespoonful amount of bait) at 8 to 12 foot intervals. Maintain uninterrupted supply of fresh bait for at least 15 days. Replace contaminated or spoiled bait immediately. Collect and dispose of all dead animals and unconsumed bait properly. Repeat treatment when infestation recurs. Where continuous source of infestation is present, establish permanent bait stations and refresh bait as needed.

DISPOSAL-See disposal instructions on side panel.

PACKAGE IS FLUX WHEN PACKED
LEAKS MAY OCCUR IN SHIPMENT
