Attention: Mr. Thomas J. Schmit

Subject **Maki Technical**
 EPA Reg. No. 7173-174
 Your amended application of February 18, 2005
 Your letters of February 18 and March 14, 2005

Purpose This application, under section 3 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), submits data to support a change in the manufacturing establishment and an increase in the purity of active ingredient from 93.5% to 98.5%.

Data Review In support of this request, you submitted product chemistry data, a Confidential Statement of Formula (CSF) dated February 15, 2005, and a revised label.

Your revised CSF is acceptable. We have placed a copy in the files for this product. All other versions are obsolete. However, within one (1) year of receipt of this letter, you will need to submit a replacement study for the Preliminary Analysis (830.1700). The problem with this study is as follows:

1. The study must be conducted under full GLP requirements, including quality assurance procedures.

A copy of the review is enclosed.

Label The labeling submitted with the above letter, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) is acceptable, provided you submit one (1) copy of final printed labeling to us, with the following changes, before you ship your product.

Label-continued

1. Place text involving medical emergencies ("For information ... 1-800-858-7378.") in your "First Aid" section, which contains similar information.
2. Under "**Storage and Disposal**", follow the "**Pesticide Disposal**" and "**Container Disposal**" texts in PR Notice 83-3. Since the signal word for this product is "DANGER" by the oral route, the correct text for "**Pesticide Disposal**" is as follows:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

3. For the "**Pesticide Disposal**" text, select the appropriate text in Appendix A (Container Disposal Statements), based on the "Container Type".

Existing stocks

Stocks of existing labels may be used for eighteen (18) months.

Consequence for non-compliance

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Questions

If you have questions about this letter or the review, please contact me at 703-305-5407 (by phone), 703-305-6596 (by fax), or peacock,dan@epa.gov (by E-Mail).

Sincerely yours,

Daniel B. Peacock, Biologist
Insecticide-Rodenticide Branch
Registration Division (7504C)

MAKI TECHNICAL

A RODENTICIDE FOR FORMULATING
OTHER REGISTERED PRODUCTS

ACCEPTED
with COMMENTS
to EPA Letter Dated:

AUG 1 2005

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Registered under EPA Reg. No. 7173-174
uses: Norway rats, roof rats and house mice.

This product may be used to formulate products for specific uses not listed on this label if the formulator, user group, or grower has complied with U.S. E.P.A. submission requirements regarding support of such uses.

For information on this product (including health concerns, medical emergencies or pesticide incidents) call the National Pesticide Information Center at 1-800-858-7378. (07005)

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
Storage: Store in original container in a cool, dry place inaccessible to children and pets.
Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
Container Disposal: Dispose of empty container in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY: Seller makes no warranty, expressed or implied, concerning use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of product when such use and/or handling is contrary to label instructions.

NET CONTENTS: 22 lb (10 kg)

Active ingredient: bromadiolone 98.5%
Other ingredients 1.5%
Total 100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER POISON

FIRST AID:

Have this label with you when obtaining treatment advice. You may also call 1-800-558-1003 for emergency medical treatment information.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment.

Note to Physician or Veterinarian: Contains bromadiolone, an anticoagulant. For humans or dogs that have ingested this product, or have obvious poisoning symptoms (bleeding) or lowered prothrombin times, give Vitamin K₁ by intramuscular or oral administration. In severe cases, blood transfusions may be necessary. Check prothrombin time every 3 days until values return to normal.

See side panel for additional precautionary statements.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Fatal if swallowed, absorbed through skin or inhaled. Corrosive, causes skin burns. Causes irreversible eye damage. Do not get in eyes, on skin or on clothing. Do not breathe dust. Wear a dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C), eye goggles and rubber gloves when handling this product. Wash hands, arms and face before eating, drinking, chewing gum, using tobacco or using the toilet. Exposure to this product during pregnancy should be avoided. Repeated exposure to small amounts of this product can produce cumulative toxicity. Persons at risk should have their prothrombin times checked periodically.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
