

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF
PREVENTION, PESTICIDES
AND TOXIC SUBSTANCES

Mr. Tom Schmit
Liphatech, Inc.
3600 W. Elm Street
Milwaukee, WI 53209

AUG 27 2003

Dear Ms. Schmit:

Subject: Revised Confidential Statement of Formula; Revised Labeling
Rozol Pocket Gopher Bait
EPA Registration No. 7173-184
Your Submissions Dated March 27, 2001 and March 17, 2003

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided you make the following change before you release the product for shipment bearing the amended labeling:

- Under the Precautionary Statement, remove the following section: "If on skin....call a physician at once." These statements should appear under the heading First Aid. See PR Notice 2001-1 for the appropriate wording.

Submit two copies of your final printed labeling before you release the product for shipment. A stamped copy is enclosed for your records.

The confidential statement of formula dated December 6, 2000 for the revised basic formulation is acceptable. All other formulations are obsolete.

If you have any questions, please contact me at (703) 308-6249 or hebert.john@epa.gov.

Regards,

A handwritten signature in black ink, appearing to read "John Hebert".

John Hebert
Insecticide-Rodenticide Branch
Registration Division (7505C)

ACCEPTED
with COMMENTS
In EPA Letter Dated:

AUG 27 2003

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, this pesticide is registered under EPA Reg. No. 7173-184

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION

Keep away from humans, domestic animals and pets. If swallowed or absorbed through skin, this material may reduce the clotting ability of the blood and cause bleeding. If on skin, wash with soap and water. If swallowed, call a physician at once.

NOTE TO PHYSICIAN: If ingested, administer Vitamin K₁ intramuscularly or orally as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

ENDANGERED SPECIES CONSIDERATIONS

Do not use this product within prairie dog towns in the range of the black-footed ferret without first contacting endangered species specialists, U.S. Fish and Wildlife Service, Denver Regional Office.

This pesticide should not be used within one mile of active dens of the San Joaquin Kit Fox in the following California counties: Kern, Kings, Fresno, San Luis Obispo, Merced, Monterey, Santa Barbara, Ventura, Tulare and San Benito. Prior to use, contact endangered species specialists at the California Department of Fish and Game or the U.S. Fish and Wildlife Service, Portland Regional Office for recommendations.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED
BY STORAGE OR DISPOSAL.

Storage: Store in original container in a cool, dry place inaccessible to children and pets.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

FOR THE CONTROL OF POCKET GOPHERS

Active Ingredient:

2-[(p-chlorophenyl) phenylacetyl]-1,3-indandione* 0.005%

Inert Ingredients:..... 99.995%

TOTAL 100.000%

*Chlorophacinone-Liphadione

KEEP OUT OF REACH OF CHILDREN

CAUTION

See left panel for additional
precautionary statements

LIPHA TECH

Manufactured by Liphatech Inc.

NET CONTENTS: 30 lb (13.64 kg)

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Rozol Pocket Gopher Bait is recommended for use on lawns, golf courses, range land and non-crop areas.

Directions for placing Rozol Pocket Gopher Bait for Pocket Gopher Control: Burrowing pocket gophers (*Thomomys* sp. and *Geomys* sp.) throw out low, fan-shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and these holes are plugged with loose soil.

Treatment: Can be made in one or both of the following ways.

1. With a long-handled tablespoon, carefully remove the plug on the flat side of the fan. Carefully insert 1/2 cup of bait as far down into the hole as possible. Reclose opening, being careful not to cover the bait with soil.
2. Using a metal rod, probe 6-12 inches deep to locate the main tunnel. Consult diagram below for location to probe. Drop 1/2 cup of bait into the tunnel and cover the hole so light will not enter the tunnel system.

Consult Federal and state rodent control bulletins for a full discussion of pocket gopher burrowing habits.

Make 2-3 treatments per burrow system. Bury dead animals and spilled bait found on soil surface immediately. Maintain a constant supply of bait in the burrow system for as long as there is gopher activity. Do not apply bait on surface soil.

The right and the wrong ways to use a probe for poisoning gophers are shown above. Be sure that bait is in the main runway—not in the laterals or imbedded in the bottom of the runway.

KEEP AWAY FROM FOODSTUFFS
