### UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, D.C. 20460

JUN 19 2009

OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

Ms. Rachel M. Callies Liphatech, Inc. 3600 W. Elm Street Milwaukee, WI 53209

Subject: Minor Changes in Compliance with PR Notice 2007-4

Dear Ms. Callies:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated August 18, 2008 for:

EPA Registration 7173-187 EPA Registration 7173-188 EPA Registration 7173-189 EPA Registration 7173-202 ✓ EPA Registration 7173-218 EPA Registration 7173-243 Maki Paraffinized Pellets Maki Rate and Mouse Bit Packs (Pellets) Maki Paraffin Blocks Maki Mini Blocks Generation Mini Blocks Roxol Mini Blocks

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

If you have any questions, at 703 305-5409 or electronically at daniel.dani@epa.gov

Sincerely,

Dani Daniel Registration Division (7505P) Insecticide/Rodenticide Branch

Re: Notification of Minor Label Changes for: Maki Paraffinized Pellets, EPA Reg. No. 7173-187 Maki Rat and Mouse Bait Packs (Pellets), EPA Reg. No. 7173-188 Maki Paraffin Blocks, EPA Reg. No. 7173-189 Maki Mini Blocks, EPA Reg. No. 7173-202 Generation Mini Blocks, EPA Reg. No. 7173-218 Rozol Mini Blocks, EPA Reg. No. 7173-243

Dear Mr. Hebert,

Enclosed is a notification of Minor Label Changes for the products listed above. The changes have been highlighted on the enclosed labels and have been made to comply with PR-Notice 2007-4.

The only other change made to these labels is the addition of the phrase "To the extent consistent with applicable law," in the warranty section of the label. This change has been made to comply with the Label Review Manual.

Please contact me if you have any questions regarding this submission.

Sincerely,

achel M. Callies

### PRECAUTIONARY STATEMENTS Hazard to Humans and Domestic Animals

CAUTION: Keep away from children, domestic animals and pets. May be harmful if swallowed or absorbed through the skin because it may reduce the clotting ability of blood and cause bleeding. Do not get in eyes, on skin or on clothing. Wash arms, hands and face with soap and water after applying and before eating and smoking. If bait is handled, wear gloves.

#### **FIRST AID**

Have this label with you when obtaining treatment advice. If swallowed: Call a poison control center or doctor immediately for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin with plenty of cool water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Note to Physician or Veterinarian: If ingested, administer Vitamin K<sub>1</sub>, intramuscularly or orally as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal Pesticide Storage: Store in original container in a cool, dry place inaccessible to children and pets. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Handling: This is a nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or dispose of empty container in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY: To the extent consistent with applicable law, seller no warranty, expressed or implied, makes concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

### DIRECTIONS FOR USE

It is a violation of Fedoral law to use this product in a manner inconsistent with its labeling. READ THIS LADEL and fc!! we use directions and use precautions.

IMPORTANT: Do not expose children, pets or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and

pets. 2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to castruction, by dogs and children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, other potentially destructive animals, or in areas prone to vandalism.

3. Dispose of product container, unused, spoiled, and unconsumed

USE RESTRICTIONS: This product may be used to control Norway rats, roof rats and house mice. Do not place bait in areas where there rats, roor rats and nouse mice. Do not place dait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not broadcast bait. Urban areas: This product may be used in and around homes, food processing facilities, industrial, commercial and public buildings; in transport vehicles (ships, trains, aircraft) and in and around related port or terminal buildings. This product may also be used in alleys. Non-urban areas: This product may only be used inside of homes and agricultural buildings. SELECTION OF TREATMENT AREAS: Determine areas where rats or

mice will most likely find and consume bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors or walls, or in locations where rodents or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS: Mice: Apply one block per placement. 2 blocks may be needed at points of very high mouse activity. Space placements 8 to 12 feet apart. Maintain a constant supply of fresh bait to 15 days or until fresh signs of mouse activity cease. Rats: Apply 3 to 16 blocks per placement. Space placements 15 to 30 feet apart. Maintain a constant supply of fresh bait for 10 days or until fresh signs of rat activity cease. For burrows, insert one or two blocks deep into each active burrow. Check treated burrows each morning and evening to make sure that bait has not been pushed out of burrows. For sewer applications, run a wire through the holes in the bait blocks and attach the wire to a stationary structure such as the bottom step of a manhole ladder or to a sewer grate, allowing just enough wire for the blocks to rest on manhole benching. If benching is not present, suspend bait blocks a few inches above the high water line or place blocks on a board supported by opposing steps of the ladder. Securing blocks in this manner will minimize chances for removal by rats or water. Place at least 12 bait blocks per manhole. Follow-up: Replace contaminated or spoiled bait immediately. Collect and dispose of all visible dead animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation occurs, repeat treatment. For a continuous infestation, set up permanent bait stations and replenish bait as needed. (12809)
