REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO. 7173-208
DATE OF ISSUANCE OCT 15 1993
TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT
Maki Rodenticide Bait Packs
(Pellets)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)
LiphaTech, Inc.
3101 West Custer Ave.
Milwaukee, WI 53209
S448758 160
18

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that:

A. The pellet size used corresponds to that in 7173-187 and 7173-188 and that the "Paperpoly" material (63.5% "Paper, 36.5% "Poly") used in the bioassays is used for making the 25-g placepacks.

B. You make the labeling change listed below before you release the product for shipment:

In the second sentence in item "2." under "IMPORTANT," in the use directions, change "form" to "from."

C. You sell retail packages which contain 16 or more placepacks. If you intend to sell these placepacks in lots of less than 16, you must develop and secure our acceptance of an appropriate qualifying statement so the claims for control of commensal rats would not be found to be "false or misleading" in any way.

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Keep away from humans, domestic animals and pets. May be harmful or fatal if swallowed or absorbed through the skin because this material may reduce the clotting ability of blood and cause bleeding.

Do not get in eyes, on skin or on clothing. Wash arms, hands and face with soap and water after applying and before eating and smoking. If swallowed, call a physician at once.

NOTE TO PHYSICIAN: If ingested, administer Vitamin K₁ intramuscularly or orally as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds.

STORAGE AND DISPOSAL:

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL. STORE IN ORIGINAL CONTAINER IN LOCKED STORAGE AREA.

STORAGE: Store in original container in a cool, dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Securely wrap excess, unused or spoiled bait in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse pail. Rinse thoroughly before discarding in trash.

KEEP AWAY FROM FOODSTUFFS

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read and follow all directions and use precautions.

IMPORTANT: Do not expose domestic animals to rodenticides. To help protect animals:

1. Store product not in use in a secure container.

2. Apply bait in locations inaccessible to domestic animals and nontarget wildlife. These stations must be secured to prevent access by children under six years of age. To prevent children from obtaining bait, if a bait can be lifted, units must be secured with a lock. Stronger bait stations are necessary in areas where raccoons, bears, or other pests are prone to vandalism.

3. Dispose of product containing bait as specified on this label.

USE RESTRICTIONS: For use in homes and buildings infested with House Mice.

URBAN AREAS: This product should not be used in the periphery of homes, industrial areas, or near airports. This product may also be used in areas such as (ships, trains, aircraft) and related facilities. This product may be used in alleys and areas adjacent to homes and agricultural buildings.

Do not place bait in areas where it may contaminate food or surfaces. Do not broadcast bait.

SELECTION OF TREATMENT: Determine areas where rats and mice are likely to consume the bait. Generally, check for signs of activity in openings, in or beside burrows, in cracks and crevices between floors and walls, or in areas where signs have been observed. If signs are observed, treatment is possible.

APPLICATION DIRECTION:
RATS: Place at least 4 to 16 bait stations per 1000 sq ft of uninterrupted supply of fresh food. Do not place bait until activity ceases.

MICE: Use one pack per 1000 sq ft. Place at points of very high activity. Place bait at 8- to 12-foot intervals. Maintain bait for 15 days or until signs of activity cease.

RATS AND MICE: Repeat treatment as necessary. Collect and dispose of bait properly. To prevent reinfestation, seal off harborage as much as possible. Where a continuous infestation exists, establish permanent bait stations.
