

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

Date of Issuance:

7173-211

MAY 3 1995

Term of Issuance

Unconditional

Name of Pesticide Product:

Generation
Rodenticide Bait
Packs (Pellets)

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

LiphaTech, Inc.
3600 West Elm Street
Milwaukee, Wisconsin 53209

5484950 ¹¹⁶/₁₇
5485478 ¹¹⁶/₁₇

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5).

Make the following changes to the labeling of the subject product before you release it for shipment:

1. Revise the EPA Registration Number to read, "EPA Reg. No. 7173-211".
2. Modify the heading "PRECAUTIONARY STATEMENTS:" so that it occurs on a line all by itself, does not end with a colon (":"), and is centered. The subheading "HAZARD TO HUMANS AND DOMESTIC ANIMALS" must begin on the line immediately below the line on which "PRECAUTIONARY STATEMENTS" occurs and should be the only text on the line(s) on which it occurs.
3. On the container label the heading "DIRECTIONS FOR USE" must be increased in font size, so that it is the same font size as the other major headings, such as "PRECAUTIONARY STATEMENTS" and "STORAGE AND DISPOSAL".

You must submit one copy of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

Signature of Approving Official:

[Handwritten Signature]

Date

MAY 3 1995

page 2
EPA Reg. No. 7173-205

If the final printed labeling is not received prior to shipment of this product, the registration will be subject to cancellation in accordance with FIFRA Section 6(e). Your release for shipment of the product constitutes acceptance of these requirements.

Your proposal to change the name of this product from Halt Rodenticide Bait Packs (Pellets) to Generation Rodenticide Bait Packs (Pellets) is acceptable.

A stamped copy of the label is enclosed for your records. If you have any questions about this letter, please contact John Bazuin at (703)305-6784 or (703)305-6600.

Sincerely yours,

Robert A. Forrest
Product Manager (14)
Insecticide-Rodenticide Branch
Registration Division (7505C)

PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Keep away from children, domestic animals and pets. May be harmful or fatal if swallowed or absorbed through the skin because this material may reduce the clotting ability of blood and cause bleeding.

Do not get in eyes, on skin or on clothing. Wash arms, hands and face with soap and water after applying and before eating and smoking. If swallowed, call a physician at once.

NOTE TO PHYSICIAN OR VETERINARIAN: This product may reduce the clotting ability of the blood and cause hemorrhaging. If poisoning occurs, intramuscular and oral administration of Vitamin K1 is antidotal as indicated in bishydroxycoumarin overdoses. Repeated doses may need to be given for up to two weeks (based on monitoring of prothrombin times). In severe cases, blood transfusions may be necessary.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds.

STORAGE AND DISPOSAL:

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL. STORE IN ORIGINAL CONTAINER IN LOCKED STORAGE AREA.

STORAGE: Store in original container in a cool, dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product should be securely wrapped in several layers of newspaper and then disposed of in a sanitary landfill or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse pail. Rinse thoroughly before discarding in trash.

KEEP AWAY FROM FOODSTUFFS

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read directions and use precautions.

IMPORTANT: Do not expose animals to rodenticides. To help:

1. Store product not in use in a secure location inaccessible to children, animals, and nontarget wildlife.
2. Apply bait in locations out of reach of children, animals, and nontarget wildlife. These stations must be resistant to tampering. Bait stations must be secured or otherwise immobilized so that they cannot be shaken from stations. Bait stations must be secured or otherwise immobilized so that they cannot be shaken from stations. Bait stations must be secured or otherwise immobilized so that they cannot be shaken from stations.
3. Dispose of product container, as specified on this label.

USE RESTRICTIONS: For control of House Mice.

URBAN AREAS: This product should not be used in its transport vehicles (sheds, related port or terminal buildings, etc.) unless it must be made in tamper-resistant containers. Other external parts of buildings where rats or mice might seek to enter should be sealed.

NON URBAN AREAS: This product should not be used in residential, agricultural buildings.

Do not place bait in areas where food or surfaces that come in direct contact with food.

SELECTION OF TREATMENT AREAS: Determine areas where rats and mice are likely to consume the bait. Generally, these areas are in cracks, openings, beside burrows, in cellars, attics, floors and walls, or in locations where signs of activity are observed. Remove as much alternate food as possible.

APPLICATION DIRECTIONS: Place at least 3 to 16 pellets per bait station. Bait should be placed at intervals to maintain an uninterrupted supply of fresh bait until mouse activity ceases.

MICE: Use one pack per bait station at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait until signs of mouse activity cease.

RATS AND MICE: Replace bait immediately. Collect and dispose of bait stations properly. To prevent reinfestation, seal off harborage as much as possible. Where a continuous supply of bait is not possible, establish permanent bait stations.
