Confidential Statement of Formula (CSF) dated August 10, 1994, which is on file for this product. If this certification is discovered to be in error, appropriate remedial steps may be taken.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

- A. make the following changes and submit one (1) copy to us before you ship your product:
 - 1. On the center panel of the proposed label submitted on January 10, 1996, delete the comma between "KILLS" and "NORWAY" and insert a comma between "MICE" and "AND" in the claim "KILLS NORWAY RATS, RATS".
 - 2. In the "APPLICATION DIRECTIONS" portion of the "DIRECTIONS FOR USE", use lower case letters to subordinate the subheadings "Mice:", "Rats:" and "Rats/Mice;".
- B. within <u>90 days of receipt</u> of this <u>Notice</u>, submit an updated Data Matrix for this product, listing all of the data requirements (name and guideline number) for the source product and this end-use product and how each requirement was satisfied. The previously submitted form was incomplete and obsolete.
- C. within 15 months of receipt of this Notice, submit the following data to support this product:
 - 1. Storage Stability (63-17)

2. Corrosion Characteristics (63-20) If these conditions are not complied with, the registration (will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

William W. Jacobs, PhD Product Manager (14) Insecticide-Rodenticide Branch Registration Division (H7504C)

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets or other nontarget animals to rodenticides. To help prevent accidents;

1. Store product not in use in a location out of reach of children and pets.

Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait

stations. These stations must be resistant to destruction by

dogs and by children under six years of age, and must be used in a manner that prevents such children form reaching into bait compartments and obtaining bait. If a bait can be shaken from stations when they are lifted, units must be secured or otherwise Immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other

a) Dispose of product container, unused, spoiled, and unconsumed bait as specified on this label.

USE RESTRICTIONS:

For Control of Norway rats, roof rats and House mice,

URBAN AREAS:

Ъġ May be used in and around the periphery of homes,

Industrial, commercial and public buildings. This

product may also be used in transport vehicles (ships,

trains, alteraft) and in and around related port or

terminal buildings. May also be used in alleys Do not use in sewers,

NONURBAN AREAS:

May be used inside homes and agricultural buildings.

Do not place bait in areas where there is a possibility of contaminating food or surfaces that come into contact with food. Do not broadcast bait.

SELECTION OF TREATMENT AREAS: Determine areas where rats and or mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain or snow. Remove as much alternative food as possible. APPLICATION DIRECTIONS:

RATS: Use 3-16 MINI BLOCKS per placement. Space HAIS: Use 3-16 MINI BLOCKS per placement. Space placements at intervals of 15-30 feet in infested areas, Maintain an uninterrupted supply of fresh bait for at least 10 days or until fresh signs of rat activity no longer are evident. MICE: Use one MINI BLOCK per placement. At points of very high mouse activity, two MINI BLOCKS may be used. Space placements at intervals of 8-12 feet. Maintain an uninterrupted

supply of fresh bait for 15 days or until fresh signs of mouse activity no longer are evident. RATS/MICE: Replace contaminated or spoiled bait immediately.

Collect and dispose of all dead animals and leftover ball properly. To prevent reinfestation, limit sources of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish bait as needed.
