 <p style="text-align: center;">U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505C) 401 "M" St., S.W. Washington, D.C. 20460</p> <p style="text-align: center;"><b>NOTICE OF PESTICIDE:</b> <u>  x  </u> Registration <u>    </u> Reregistration</p> <p style="text-align: center;">(under FIFRA, as amended)</p>	EPA Reg. Number:	Date of Issuance:
	7173-226	May 8, 2003
	Term of Issuance:	
Name of Pesticide Product:		
<b>Generation Block</b>		
Name and Address of Registrant (include ZIP Code):		
<p>LiphaTech 3600 West Elm Street Milwaukee, WI 53209</p>		
<p><b>Note:</b> Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p>		
<p>This product is registered in accordance with sec. 3(c)(5) of the Federal Insecticide, Fungicide and Rodenticide Act provided that you submit a copy of final printed labeling to us, with the following labeling changes, before you release product for shipment:</p>		
<ol style="list-style-type: none"> <li>1. To avoid having a false and misleading section on your label, change the heading, "WARRANTY" to "DISCLAIMER" or add this first sentence to the "WARRANTY" section: "LiphaTech warrants that this product conforms to the chemical description on the ingredient statement and is reasonably fit for the purposes stated in the use directions, when used according to directions under normal use conditions." You may make the same change on the labels of your other products when you reprint them.</li> <li>2. Under "Pesticide Disposal" in your commercial "STORAGE AND DISPOSAL" text, delete "on site or", a vague phrase that could lead to improper disposal.</li> <li>3. Under your homeowner "STORAGE AND DISPOSAL" text, bold the subheadings, "If empty" and "If partly filled".</li> <li>4. To insure the clarity of the product name, <u>use the same type size and style</u> for "generation" and "Block" and move the two words <u>closer together</u>.</li> <li>5. To clarify the purpose of its inclusion on the label, add "(form)" or "(product form)" after the words, "BLOCKS" at the top of the Front Panel. The word(s) can be in smaller type.</li> <li>6. After "EPA Reg. No. 7173-", add "226".</li> </ol>		

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

- Enclosures.    1. Stamped Label  
                  2. Minimum Type Sizes for Final Printed Label.

EPA Form 8570-6

**Letter filed**    Disk 103,A:\Difethialone\7173-226, Notice of Registration, 5-7-2003.wpd

**PRECAUTIONARY STATEMENTS**  
 Hazard to Humans and Domestic Animals

**CAUTION:** Keep away from children, domestic animals and pets. May be harmful or fatal if swallowed or absorbed through the skin because it may reduce the clotting ability of blood and cause bleeding. Do not get in eyes, on skin or on clothing. Wash arms, hands and face with soap and water after applying and before eating and smoking.

**FIRST AID**  
 Have this label with you when obtaining treatment advice. If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Note to Physician or Veterinarian: This product may reduce the clotting ability of the blood and cause hemorrhaging. If poisoning occurs, intramuscular and oral administration of Vitamin K<sub>1</sub> is antidotal as indicated in bishydroxycoumarin overdoses. Repeated doses may need to be given for up to two weeks (based on monitoring of prothrombin times). In severe cases, blood transfusions may be necessary.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and wildlife. Do not apply directly to water.

**STORAGE AND DISPOSAL**  
 Do not contaminate water, food or feed by storage or disposal. Storage: Store in original container in a cool, dry place inaccessible to children and pets. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Disposal: Dispose of empty container in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**WARRANTY:** Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

Under the Federal Insecticide,  
 Fungicide, and Rodenticide Act  
 as amended, for the pesticide  
 registered under EPA Reg. No.

7173-226

Alternate "Storage and Disposal" statement for packaging intended solely for household use:

**STORAGE AND DISPOSAL**  
 Storage: Store in original container in a cool, dry place inaccessible to children and pets. Disposal: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**DIRECTIONS FOR USE**  
 It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL** and follow all use directions and precautions. **IMPORTANT:** Do not expose children, pets or other nontarget animals to rodenticides. To help prevent accidents:  
 1. Store product not in use in a location out of reach of children and pets.  
 2. Apply bait in locations out of reach of children, pets, domestic animals, and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, other potentially destructive animals, or in areas prone to vandalism.  
 3. Dispose of product container, unused, spoiled, and unconsumed bait as specified on this label.

**USE RESTRICTIONS:** This product may be used to control Norway rats, roof rats and house mice at the Urban and Non-urban sites identified below. Do not place bait where there is a possibility of contaminating food or surfaces that come in direct contact with food.

**Urban Areas:** This product may only be used: in and around homes; in and around industrial, commercial and public buildings; in transport vehicles (ships, trains, aircraft), and in and around related port or terminal buildings. All applications "around" buildings must be made in tamper-resistant bait stations placed along the walls or other external parts of buildings (e.g., doorways, ramps, loading docks) where rats or mice might seek to gain entrance.

**Non-urban Areas:** This product may only be used inside of homes and agricultural buildings.

**SELECTION OF TREATMENT AREAS:** Determine areas where rats or mice are likely to find and consume bait, such as along walls, by gnawed openings, in corners and concealed places, between floors or walls, or locations where rodents or their signs are seen. Remove as much alternative food as possible.

**APPLICATION DIRECTIONS:** Each Generation Block is scored to be broken into 2-ounce pieces.

**Rats:** Break block and apply two to eight 2-ounce pieces (or one entire block) per placement. Space placements at 15 to 30 foot intervals. Maintain a constant supply of fresh bait for 10 days or until signs of rat activity cease.

**Mice:** Break block and apply two to eight 2-ounce piece per placement. Space placements at 8 to 12 foot intervals. Maintain a constant supply of fresh bait for 15 days or until signs of mouse activity cease.

**Follow-up:** Replace contaminated or spoiled bait immediately. Collect and dispose of all visible dead animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation occurs, repeat treatment. For a continuous infestation, set up permanent bait stations and replenish bait as needed.
