

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division
400 Michigan Avenue, NE
Washington, DC 20460

EPA Reg. Number:
7173-233

Date of Issuance:
February 20, 2004

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Term of Issuance:
Conditional

Name of Pesticide Product:
Generation Rat and Mouse
Bait Tray

Under FIFRA, as amended:

Name and Address of Registrant (include ZIP Code):

Lipha Tech, Inc.
3600 West Elm Street
Milwaukee, WI 53209
Attn: Mr. Thomas Schmidt

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/preregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7) provided that you:

1. Make the following label change(s) before you release the product for shipment:
 - a. Add the following registration number: EPA Reg. No. 7173-233 to your label.
 - b. In the **USE RESTRICTIONS**: statement under **"NON-URBAN AREAS"**: modify the statement to read:

This product may only be used inside of homes and agricultural buildings.

In the **"URBAN AREAS"** statement, modify to read:

This product may be used indoors and in transport vehicles (ships, trains, aircraft). May only be used outdoors within 15 ft of homes, industrial, commercial, agricultural, public buildings, and similar manmade structures.

Signature of Approving Official:

Geraldine R. McCann
EPA/OPP/RD/IRB

Date

2. Submit one (1) copy of the revised final printed label for the record before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
3. A copy of the label stamped "Accepted" is enclosed for your records

Questions:

If you have any questions or comments about this letter, please contact me at 703-605-0716 (by phone), 703-305-6596 (by fax), or mccann.geri@epa.gov (by E-Mail).

Sincerely,

Geraldine R. McCann

RAT & MOUSE BAIT TRAY

**KILLS NORWAY RATS,
ROOF RATS, HOUSE MICE AND
WARFARIN-RESISTANT HOUSE MICE**

THIS SIDE UP
PULL TAB LEFT
AND TWIST OFF

Active Ingredient: difethialone* . . . 0.0025%
Inert Ingredients 99.9975%
Total 100.0000%

Manufactured by:
Liphatech, Inc.
3600 W. Elm Street
Milwaukee, WI 53209

Patented in the USA
EPA Reg. No. 7173-
EPA Est. No. 7173-WI-1

Net Weight: 3 oz. (85 grams)

KEEP OUT OF REACH OF CHILDREN
CAUTION: See back panel for additional precautionary statements.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

Alternate warranty statements: Satisfaction guaranteed or your money back.

ACCEPTED
WILL COMMENTS
In EPA Letter Dated
FEB 20 2004
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
7173-233

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read the entire label on the outer package before using this product. It is illegal to sell these bait trays individually.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION: Keep away from children, domestic animals and pets. May be harmful or fatal if swallowed or absorbed through the skin because this material may reduce the clotting ability of blood and cause bleeding. Causes substantial but temporary eye injury. Do not get in eyes, on skin or on clothing. Wear safety glasses. Wash arms, hands and face with soap and water after applying and before eating and smoking.

FIRST AID: Have this label with you when obtaining treatment advice. If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Note to Physician or Veterinarian: If poisoning occurs, intramuscular and oral administration of Vitamin K₁ is antidotal as indicated in bishydroxycoumarin overdose. Repeated doses may be needed for up to two weeks (based on monitoring of prothrombin times). In severe cases, blood transfusions may be necessary.

Environmental Hazards: This product is toxic to fish and wildlife. Do not apply directly to water.

STORAGE AND DISPOSAL: Storage: Store in original container in a dry place inaccessible to children or pets. Disposal: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

CAUTION
See side panel for additional precautionary statements.

Net Weight: 12 ounces (4 x 3 oz. bait trays)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooded livestock, raccoons, bears, other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container, unused, spoiled, and unaccounted bait as specified on this label.

USE RESTRICTIONS: This product may be used to control Norway rats, roof rats and house mice at the URBAN and NON-URBAN sites identified below. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

URBAN AREAS: This product may be used in and around homes, and industrial, commercial and public buildings; in transport vehicles (ships, trains, aircraft) and in and around related port or terminal buildings. Applications "around" buildings must be made in tamper-resistant bait stations placed along the walls or other external parts of buildings (e.g., doorways, ramps, loading docks) where rats or mice might seek to gain entrance.

NON-URBAN AREAS: This product may be used inside of homes and agricultural buildings.

SELECTION OF TREATMENT AREAS: Determine areas where rats or mice are likely to find and consume bait, such as along walls, by gnawed openings, corners and concealed places, between floors or walls, or locations where rodents or their signs are seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS: This package contains enough bait (12 ounces) to kill three to eight rats. Open bait trays by pulling tab on the front panel.

Mice: Open bait tray and apply 1/4 to 1/2 ounce (1 to 2 level tablepoons) of bait per placement. Larger amount (up to 2 ounces) may be needed at points of very high mouse activity. Space placements 8 to 12 feet apart. Maintain a constant supply of fresh bait for 15 days or until signs of mouse activity cease.

Rats: Use 1 to 4 opened bait trays per placement location, or place trays or their contents into the bait compartments of the bait station. Space placements 15 to 30 feet apart. Maintain a constant supply of fresh bait for 15 days or until signs of rat activity cease.

Follow-up: Replace contaminated or spoiled bait immediately. Collect and dispose of all visible dead animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation occurs, repeat treatment. For a continuous infestation, set up permanent bait stations and replenish bait as needed.
