X Registration
Reregistration
(under FIFRA, as amended)

EPA	Reg.	Num	iher

g. Number: Date of Issuance:

7173-246

December 29, 2005

Term of Issuance:

Conditional

Name of Pesticide Product:

Generation Round Blocks

Name and Address of Registrant (include ZIP Code):

LiphaTech, Inc. 3600 W. Elm Street Milwaukee, WI 53209

Attention: Mr. Thomas J. Schmit

B31 5-277535

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you submit one (1) copy of final printed labeling to us, with the following changes, before you release the product for shipment.

1. Under "USE RESTRICTIONS", add "only" after "may" in 1st sentence.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL and follow all use directions and use precautions. IMPORTANT: Do not expose children, pets or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals, and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container unused spoiled and unprocuringed.

Dispose of product container, unused, spoiled, and unconsumed bait as specified on this label.

USE RESTRICTIONS: This product may be used to control Norway rats, roof rats and house mice. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food

contact with loot.

Urban Areas: May be used indoors and in transport vehicles (ships, trains, aircraft). May be used outdoors within 15 feet of homes, bod processing facilities, industrial, commercial, agricultural and public buildings, and similar manmade structures.

Non-urban Areas: This product may only be used inside of homes and arrotational buildings.

and agricultural buildings.

Selection of Treatment Areas: Determine areas where rats or mice will most likely find and consume bait. Generally, these are along walls, by gnawed openings, in corners and concealed place between floors or walls, or in locations where rodents or their sign have been seen. Remove as much alternative food as possible. **APPLICATION DIRECTIONS:**

(Qualifier statement only for package containing 12 blocks:) This package contains enough ball (4.2 oz.) to kill 1 to 3 rats. (Qualifier statement only for package containing 16 blocks:)
This package contains enough bat (5.6 oz.) to kill 1 to 4 rats. (Qualifier statement only for package containing 20 blocks:) This package contains enough ball (7 oz.) to kill 2 to 7 rats. (Qualifier statement only for package containing 24 blocks:)
This package contains enough balf (8.5 oz.) to kill 3 to 8 rats (Qualifier statement only for package containing 32 blocks:) This package contains enough ball (11.2 oz.) to kill 3 to 12 rats.

Inis package contains enough coat (11.2 oz.) to ker sto 12 rats.

Mice: Apply one block per placement. Up to four blocks may be needed at points of very high mouse activity. Space placements 8 to 12 feet apart. Maintain a constant supply of fresh bait for 15 days or until signs of mouse activity cease.

Rats: Apply 12 to 46 blocks per placement. Space placements 15 to 30 feet apart. Maintain a constant supply of fresh bait for 10 days or until signs of art activity cease.

Follow-up: Replace contaminated or spoiled bait immediately. Collect and dispose of all visible dead animals and feltover bait properly. To discourage reinfestation, limit sources of rodent food water and harborage as much as possible. If reinfestation occurs, repeat treatment. For a continuous infestation, set up permanent bait stations and repremish bait as needed. stations and replenish bait as needed.
