SUBJECT: Application for Pesticide Notification (PRN 98-10)
Request General Label Change (Precautionary Statements)
EPA Reg.No. 7173-283
Application Dated September 1, 2008

Dear Registrant:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated 09/01/08 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" received and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Owen F. Beeder of my staff at 703-308-8899.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

NOTIFICATION

OCT 23 2008

EPA Reg. No. 7173-283 EPA Est. No. 7173-WI-1

KEEP OUT OF REACH OF CHILDREN

CAUTION: See side (back) panel for additional precautionary statements.

PRECAUTIONARY STATEMENTS Hazard to Humans and Domestic Animals

CAUTION:

Keep away from children, domestic animals and pets May be harmful if swallowed or absorbed through the skin because it may reduce the clotting ability of blood and cause bleeding. Avoid contact with eyes, skin or clothing. Wash arms, hands and face with soap and water after applying and before eating and smoking.

FIRST AID

Have this label with you when obtaining treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Note to Physician or Veterinarian: Contains difethialone, an anticoagulant. For humans or dogs that have ingested this product, or have obvious poisoning symptoms (bleeding) or lowered prothrombin times, give Vitamin K₁ by intramuscular or oral administration. Check prothrombin time every 3 days until values return to normal.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

Net Weight: 0.7 ounces (20 grams) up to 50 lbs

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ THIS LABEL** and follow all use directions and use precautions.

USE RESTRICTIONS: This is not a tamper-resistant bait station. Do not use this product in areas accessible to children, pets, domestic animals or nontarget wildlife. Do not use this product outdoors. Use only to control house mice in homes, industrial, commercial, agricultural and public buildings. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

Selection of Treatment Areas: Determine areas where mice will most likely find and consume bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, between floors or walls, or in locations where rodents or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS: Remove bait station from package and place in horizontal positions with side against wall, exposing entrance. Space stations 8 to 12 feet apart along walls or in corners where mice or their signs have been seen. Replace bait stations if contents are consumed or contaminated. Placements not touched after three days should be moved to new locations where mouse activity is evident. Continuous bait supply is important for complete rodent eradication. Wearing gloves, collect and dispose of all dead animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation occurs, repeat treatment

STORAGE AND DISPOSAL: This is a nonrefillable container. Storage: Store in original container in a cool, dry place inaccessible to children and pets. Disposal: If empty: Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

Label placed on top of bait station:

Difethialone Bait Station Kills Mice

Net Weight: 0.7 oz (20g)

EPA Reg. No. 7173-283

EPA Est. No. 7173-WI-1

KEEP OUT OF REACH OF CHILDREN

CAUTION: Contains anticoagulant rodenticide. If swallowed, call a physician at once. See outer package label for additional precautionary statements, first aid information and directions for use. This is not a tamper-resistant bait station. Do not use in areas accessible to children, pets or nontarget wildlife. **DO NOT USE THIS PRODUCT OUTDOORS.**
