U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:
7173-289

Date of Issuance:
JAN 22 2010

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance:
Unconditional

Name of Pesticide Product:
Chlorophacinone Block 0803 Bait
Station

Name and Address of Registrant (include ZIP Code):

Liphatech, Inc.
3600 West Elm St.
Milwaukee, WI 53209

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 7173-289."
 - b. Change "Inert Ingredients" to "Other Ingredients".

Signature of Approving Official:

Kable Bo Davis, Acting Product Manager (07)
Insecticide-Rodenticide Branch, Registration Division (7505P)

Date:

JAN 22 2010

c. Remove the marketing claim "No loose bait". Once the bait is eaten into, there will be crumbs, making this a false and misleading statement.

3. Storage stability (830.6317) and corrosion characteristics (830.6320) data must be submitted within 18 months.

4. This product is in full compliance with the Agency's revised 2008 "*Risk Mitigation Decision for Ten Rodenticides*".

5. The Confidential Statement of Formula (CSF) dated June 24, 2009 has been found Acceptable.

6. **Note:** Should you wish to add a reference to the company's website on your label, please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, **regardless of whether a website is referenced on your product's label**, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

7. Submit one copy of the revised final printed label for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records. If you have any questions regarding this registration, please contact Jennifer Gaines at (703) 305-5967.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION: Harmful if swallowed or absorbed through the skin because this product may reduce the clotting ability of blood and cause bleeding. Keep away from children, domestic animals and pets. Do not get in eyes, on skin or on clothing. Any person who retrieves carcasses or unused bait following application of this product must wear gloves. Wash arms, hands and face with soap and water after applying and before eating and smoking.

FIRST AID

Have this label with you when obtaining treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Treatment for Pet Poisoning: If animal eats bait, call veterinarian at once.

Note to Physician or Veterinarian: Contains chlorophacinone, an anticoagulant. For humans or dogs that have ingested this product, or have obvious poisoning symptoms (bleeding) or prolonged prothrombin times, give Vitamin K₁ by intramuscular or oral administration. Check prothrombin time every 3 days until values return to normal.

ENVIRONMENTAL HAZARDS: This product is extremely toxic to fish and wildlife. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water.

STORAGE AND DISPOSAL

This is a nonrefillable container. **Pesticide storage:** Store in original container in a cool, dry place inaccessible to children and pets. **Pesticide disposal and Container handling: If empty:** Do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with it's labeling.

READ THIS LABEL and follow all use directions and use precautions.

USE RESTRICTIONS: THIS BAIT STATION IS NOT TAMPER-RESISTANT. DO NOT USE THIS PRODUCT OUTDOORS, OR IN AREAS ACCESSIBLE TO CHILDREN, PETS, DOMESTIC ANIMALS, OR NONTARGET WILDLIFE. This product may only be used to control house mice inside homes. For use in non-food/non-feed areas. Do not contaminate human or pet food preparation items or areas. Do not place near or inside ventilation duct openings.

Selection of Treatment Areas: Determine areas where house mice will most likely find and consume bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, between floors or walls, or in locations where house mice or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS:

Remove bait station from package and place in horizontal position with side against wall, exposing entrance. Space stations 8 to 12 feet apart along walls or in corners where house mice or their signs have been seen. Move placements not touched after three days to new locations where house mouse activity is evident. Maintain a constant supply of fresh bait for 15 days or until signs of house mouse activity cease. Replace bait stations if contents are consumed or contaminated. Wearing gloves, collect and dispose of all visible dead animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation occurs, repeat treatment.

ALTERNATE "DIRECTIONS FOR USE":

READ THIS LABEL and follow all use directions and use precautions.

USE RESTRICTIONS: THIS BAIT STATION IS NOT TAMPER-RESISTANT. DO NOT USE THIS PRODUCT OUTDOORS, OR IN AREAS ACCESSIBLE TO CHILDREN, PETS, DOMESTIC ANIMALS, OR NONTARGET WILDLIFE. This product may only be used to control house mice inside homes. For use in non-food/non-feed areas. Do not contaminate human or pet food preparation items or areas. Do not place near or inside ventilation duct openings.

ALTERNATE "APPLICATION DIRECTIONS":

APPLICATION DIRECTIONS:

- 1. Clean up:** Eliminate possible rodent food sources. Store food in sealed containers and sweep up food spills.
- 2. Select Areas for Placement:** Focus on areas where house mice have been active - generally along walls, between floors or wall, inside cabinets, under appliances, in basements, attics or garages. Be sure to place out of reach of children and pets.
- 3. Bait Station:** Remove bait station from package and place in horizontal positions with side against wall, exposing entrance. Space stations 8 to 12 feet apart along walls or in corners where house mice or their signs have been seen.
- 4. Dispose:** Maintain a constant supply of fresh bait for 15 days or until signs of house mouse activity cease. Wear gloves to collect and dispose of all visible dead animals and remaining bait.
- 5. Prevent:** To prevent another infestation, limit sources of rodent food and water as much as possible.
