7173-295

Date of Issuance:

3/22/11

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Chlorophacinone Block 0803 Bait
Station II

Name and Address of Registrant (include ZIP Code):

Liphatech, Inc.
3600 W. Elm Street
Milwaukee, WI 53209

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label change before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No 7173-295."

Signature of Approving Official:

Date:

3/22/11

Venus Eagle, Product Manager 01
Insecticide-Rodenticide Branch, Registration Division (7505P)

EPA Reg. No. 7173-295

3. Storage stability (830.6317) and corrosion characteristics (830.6320) data must be submitted within 18 months from the date of this registration notice.

4. Submit one copy of the revised final printed label for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. If you have any questions, please contact Jennifer Urbanski at 703-347-0156 or urbanski.jennifer@epa.gov.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION: Harmful if swallowed, absorbed through the skin, or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing dust. Keep away from children, domestic animals and pets. Wear waterproof gloves when handling bait or dead rodents. Wash arms, hands, and face with soap and water after handling bait or bait station.

FIRST AID

Have this label with you when obtaining treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor immediately for treatment advice.

Treatment for Pet Poisoning: If animal eats bait, call veterinarian at once.

Note to Physician or Veterinarian: Contains the anticoagulant chlorophacinone. If swallowed, this material may reduce the clotting ability of blood and cause bleeding. For humans or animals that have ingested this product or have obvious poisoning symptoms (bleeding) or prolonged prothrombin times, give Vitamin K₁ by intramuscular or oral administration.

ENVIRONMENTAL HAZARDS: This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait.

STORAGE AND DISPOSAL

Pesticide storage: Store only in original container in a cool, dry place inaccessible to children and pets. **Disposal:** Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with it's labeling.

READ THIS LABEL and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

USE RESTRICTIONS: THIS BAIT STATION IS NOT TAMPER-RESISTANT. DO NOT USE THIS PRODUCT OUTDOORS, OR IN AREAS ACCESSIBLE TO CHILDREN, PETS, DOMESTIC ANIMALS, OR NONTARGET WILDLIFE. This product may only be used to control house mice inside homes, industrial, commercial, agricultural and public buildings. For use in non-food/non-feed areas. Do not contaminate human or pet food preparation items or areas. Do not place near or inside ventilation duct openings.

Selection of Treatment Areas: Determine areas where mice will most likely find and consume bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, between floors or walls, or in locations where house mice or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS:

Remove bait station from package and place in horizontal position with side against wall, exposing entrance. Space stations 8 to 12 feet apart along walls or in corners where mice or their signs have been seen. Move placements not touched after three days to new locations where mouse activity is evident. Maintain a constant supply of fresh bait for 15 days or until signs of house mouse activity cease. Replace bait stations if contents are consumed or contaminated. Wearing waterproof gloves, collect and dispose of all visible dead animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation occurs, repeat treatment.

Label on bait station:
