

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (7505P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

7173-305

Date of Issuance:

11/3/16

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Rozol Ground Squirrel Bait

Name and Address of Registrant (include ZIP Code):

Thomas Schmit
 LiphaTech
 3600 West Elm St.
 Milwaukee, WI 53209

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Mark Suarez, Acting Branch Chief
 Invertebrate-Vertebrate Branch 3, Registration Division (7505P)

Date:

11/3/16

2. Be aware that proposed data requirements have been identified in a Work Plan. For more information on these proposed data requirements, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division:
<http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>
3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 7173-305.”
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSF:

- Basic CSF dated 8/3/2015

If you have any questions, please contact Jacquelyn Herrick by phone at 703-347-0559, or via email at herrick.jacquelyn@epa.gov.

RESTRICTED USE PESTICIDE
DUE TO HAZARD TO NONTARGET ORGANISMS
For retail sale to and use by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator's Certificate.

ROZOL[®] GROUND SQUIRREL BAIT

**FOR CONTROL OF CALIFORNIA GROUND SQUIRRELS (*Spermophilus beecheyi*)
IN VINEYARDS, ORCHARDS & GROVES, TREE & FORESTRY PLANTATIONS,
NURSERIES, RANGELAND, FALLOW AGRICULTURAL LAND**

Active Ingredient: chlorophacinone	0.005%
Inert Ingredients	<u>99.995%</u>
Total	100.000%

EPA Reg. No. 7173-_____

EPA Est. No. 7173-WI-1

KEEP OUT OF REACH OF CHILDREN

CAUTION: See side panel for additional precautionary statements.

(Liphatech Logo)
Liphatech, Inc.
3600 W. Elm Street
Milwaukee, WI 53209
(800) 351-1476

ACCEPTED 11/03/2016 <small>Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 7173-305</small>
--

Net Weight: 4 pounds up to 50 pounds

Side Panels:

FIRST AID: Have this label with you when obtaining treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin with plenty of cool water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Contains chlorophacinone, an anticoagulant. For humans that have ingested this product, or have obvious poisoning symptoms (bleeding) or prolonged prothrombin times, give Vitamin K₁ by intramuscular or oral administration. Check prothrombin time every 3 days until values return to normal.

TREATMENT FOR PET POISONING: If animal eats bait, call veterinarian at once.

NOTE TO VETERINARIAN: Anticoagulant Chlorophacinone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION: May be harmful if swallowed or absorbed through the skin because this product reduces the clotting ability of blood and causes bleeding. Keep away from children, domestic animals and pets. Do not get in eyes, on skin, or on clothing. Any person who retrieves carcasses or unused bait following application of this product must wear gloves. All handlers, (including applicators,) must wear long pants, shoes plus socks, and gloves.

User Safety Requirements: Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Dogs and predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Runoff may be hazardous to aquatic organisms in water adjacent to treated areas.

ENDANGERED SPECIES PROTECTION REQUIREMENTS: This product may have effects on endangered species. When using this product, you must follow the measures contained in the Endangered Species Protection Bulletin for the county in which you are applying the product. To obtain Bulletins, no more than six months before using this product, consult <http://www.epa.gov/espp/> or call 844-447-3813. You must use the Bulletin valid for the month in which you will apply the product.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of product when such use and/or handling is contrary to label instructions. (102116)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ THIS LABEL** and follow all use directions and use precautions. Only use this product for the pests, sites, and application methods specified on this label.

USE RESTRICTIONS: This bait may be used only for control of California ground squirrels (*Spermophilus beecheyi*) in vineyards, orchards & groves, tree & forestry plantations, nurseries, rangeland, fallow agricultural land, fence rows, highways, rail & utility rights-of-way, ditches, canal banks & levees, ornamental gardens, campgrounds and other recreational areas. Applications within orchards, groves and vineyards may be made only after harvest and during the dormant period, and may not be made after tree and vine growth resumes in spring. If applied to fallow agricultural land, do not harvest agricultural crops from treated areas for 360 days after treatment. This product must not be applied directly to food or feed crops, but may be applied along fence lines, border areas and buffer strips adjacent to crops. On rangeland, make application only by spot baiting. Do not broadcast bait on rangeland.

Do not apply this product in or within 50 feet of homes or other human residences. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Keep all other persons out of the treatment area during application.

Do not apply within 50 feet of any body of surface water. Do not allow animals to graze in treated areas for at least 30 days following application. Do not apply on roads, in water or to walkways. When applying bait along canals or other waterways, use equipment that directs bait away from water. Do not apply bait by aircraft.

APPLICATION DIRECTIONS: California ground squirrels prefer to eat fresh green grass and other plants. When these are not available (early spring or when green vegetation dries up in the hot summer), the squirrel's diet converts to grain-based foods and they will readily consume this grain-based bait. Before applying, test for the squirrel's acceptance of grain-based foods. Scatter some raw oats or wheat on a portion of the infested land, and mark the test area with a flag or other identification. Observe the area to confirm only ground squirrels are consuming the raw oats or wheat. Do not apply the bait if it appears that other nontarget species are consuming the test grain and apply bait only when California ground squirrels appear to be readily consuming the test grain.

Spot baiting: Scatter ¼ cup of bait (approximately 2 ounces) over 40 to 50 square feet (a circle approximately 7 to 8 feet diameter) near burrows and active runways. Do not pile the bait. Make a second application 3 to 4 days after the first, following the same procedure as the first application. If squirrel activity persists, a third application may be made 3 to 4 days later. An uninterrupted supply of bait should be available for 6 to 8 days. Do not exceed 10 pounds of bait per acre per application. Do not exceed 20 pounds of bait per acre per year.

Broadcast baiting: Using a commercial spreader, apply up to 10 lbs of bait per swath acre, in the area of squirrel activity. Make a second application 4 days after the first. If necessary, make a third application four days after the second application, in order to maintain an uninterrupted supply of bait for 6 to 8 days, but do not exceed 10 pounds of bait per acre per application. Do not exceed 20 pounds of bait per acre per year.

Clean-up: Clean up any spilled bait or bait in piles for reuse or disposal according to label "Pesticide Disposal" instructions. Use detergent and hot water to wash spoons, cups and other application equipment. Do not use the same equipment for mixing, holding or transferring food or feed.

Surveillance and Follow-Up: Dead ground squirrels should begin to appear in or near treated areas within 4 to 5 days after the first bait application. Visit the application site to monitor the effects of treatment 4 days after the first application and at subsequent intervals of 1 to 2 days. Wearing gloves, collect and properly dispose of visible carcasses of ground squirrels and other species found in or near treated areas. Dead animals buried on site must be buried a minimum of 18 inches below the ground surface, preferably deeper. Continue to collect and dispose of dead ground squirrels and search for non-target animals for at least 2 weeks after the last bait application, or longer if carcasses are still being found at that time. Carcass collection and burial should be performed in the late afternoon, near sundown, to reduce the potential for nocturnal, scavengers or predators to find carcasses on the ground surface. Wear gloves and use leakproof plastic bags or other suitable containers for transporting carcasses not buried on site.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container in a cool, dry place inaccessible to children and pets.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of in trash or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. [Plastic:] Completely empty container then offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill. [Paper:] Completely empty container, then dispose of empty container in trash or at an approved waste disposal facility.
