

Butcher's Quest 3 quaternary Germicide Cleaner

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. Quest is formulated for this problem area. It both cleans and disinfects effectively when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

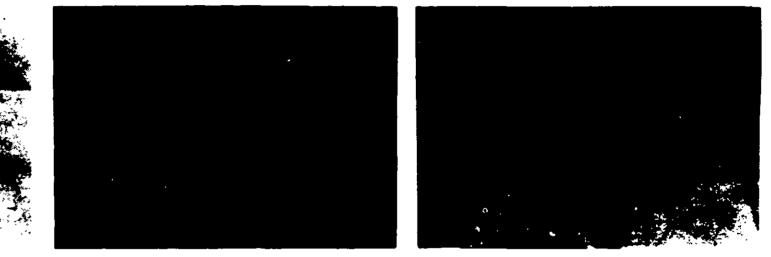

Two ounces of Quest per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where bacterial growth can cause malodors.

Rinse empty container with water before discarding.

THE BUTCHER POLISH CO. Boston, Mass. 02148

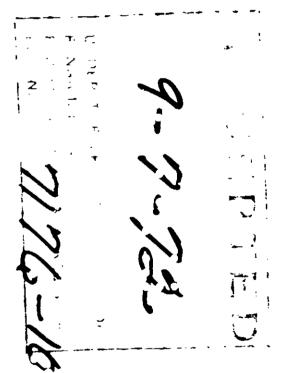

FOR HOSPITALS & NURSING HOMES: Add two ounces per gallon of water. At two ounces per gallon use-level, Quest is effective against Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, and pathogenic fungi. Germicidal performance against the first four organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance was determined against T. interdigitale by the AOAC Fungicidal Test.

FOR SCHOOLS, INSTITUTIONAL & INDUSTRIAL USES: Add one ounce per gallon of water. At one ounce per gallon use-level, Quest delivers excellent cleaning and is germicidal. It is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, and Trichophyton interdigitale, the athlete's foot fungus. The same AOAC tests used above to confirm suitable performance for hospitals were used.

USE DIRECTIONS: Apply Quest to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop. For heavily soileu areas, a preliminary cleaning may be required.

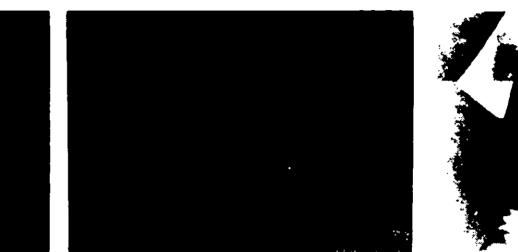

Cleaner · **Disinfectant** · **Deodorizer** · **Fungicide for Hospital and Institutional Use**

AOAC Phenol Coefficients Staph. aureus (ATCC No. 6538) 100	Salmonella typhosa (ATCC No. 6539) 50
Active Ingredients Didecyl dimethyl ammonium chloride Tetrasodium ethylenediamine tetraacetate	
Sodium carbonate Sodium metasilicate, anhydrous	1.0% 0.5%
Inert Ingredients	100.000

WARNING: KEEP OUT OF REACH OF CHILDREN. Causes severe eye and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food. FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink promptly a large quantity of water. Avoid alcohol. Call a physician immediately.
