Butcher's Clockwork Disinfectant Deodorizer Sanitizer

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Clockwork provides sanitizing, disinfecting and deodorizing in Hospitals, Food Processing Plants, Dairies, Restaurants, Bars, and other institutions. When used as recommended, it is effective as a sanitizer against *Escherichia Coli* and *Staphylococcus aureus*; and as a disinfectant against *Staphylococcus aureus*, *Salmonella choleraesuis* and *Pseudomonas aeruginosa*. Clockwork is authorized under the Food Additive Amendment of the Federal Food, Drug and Cosmetic Act for use as a sanitizing solution at 200 ppm active level without requiring a final potable water rinse.

Authorized by USDA for use in federally inspected meat and poultry plants.

SANITIZATION—To sanitize previously cleaned and rinsed non-porous food contact surfaces, prepare 200 ppm active quaternary solution by adding 1 ounce Clockwork to 4 gallons of water.

When used for sanitization of previously cleaned food equipment or food contact items, limit active quaternaries to 200 ppm. At this level NO POTABLE WATER RINSE is required.

DISINFECTION—At 3 ounces per 5 gallon dilution, Clockwork exhibits effective disinfectant activity against the organisms *Salmonella choleraesuis* and *Staphylococcus aureus*.

At 3 1/2 ounces per 5 gallons dilution, Clockwork is an acceptable hospital disinfectant and demonstrates disinfectant activity against *Pseudomonas aeruginosa*.

To disinfect previously cleaned hard inanimate surfaces (such as walls, floors), apply Clockwork with mop, cloth, or sponge so as to wet thoroughly.

Allow to remain wet for 10 minutes and then let air dry.

DEODORIZER—To deodorize, apply Clockwork as indicated under the heading Disinfection above.

Efficacy Tests Have Demonstrated That Clockwork Is An Effective Bactericide, in The Presence Of Organic Soil (5% Blood Serum)

PRECAUTIONARY STATEMENT

Hazard to Human and Domestic Animals.

DANGER Keep Out of Reach Of Children. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE AND DISPOSAL: Store in original container away from extreme heat or cold. Collect any spilled material for proper disposal.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional office for guidance.

CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.
