

**OZTIUM Reduces Airborne Bacteria
Removes Smoke - Dispers Odors**

Specified for Use In
**HOSPITALS • SCHOOLS
INDUSTRIES • OFFICES • HOTELS
PUBLIC BUILDINGS**

DIRECTIONS: Spray for one second toward center of room, away from drapes, walls, etc., to reduce airborne bacteria in an average size room (10' x 14' x 8'). Repeat application several times daily. For smoke and odor control, treat average size rooms twice with one second sprays.

Avoid inhalation of spray mist. Avoid contact with skin or eyes.

FLAMMABLE: Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures over 130°F. may cause bursting. Do not spray on painted or lacquered surfaces.

NON REFILLABLE - DISCARD WHEN EMPTY

Disinfectant Cleaner

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISINFECTION - To clean and disinfect floors, and walls, tables, chairs, sinks and tubs, mix Quantum 1 oz. per gallon of water. Wet surface thoroughly with clean mop, sponge, or cloth. Allow to remain wet for 10 minutes, and to air dry. For heavily soiled areas, a pre-cleaning step is required. Quantum is for hospitals, nursing homes, schools, food processing and service facilities, and other institutions. At 1 oz. per gallon of water, Quantum is an effective disinfectant against:

Pseudomonas aeruginosa PRD-10	Brevibacterium ammoniagenes
Escherichia coli	Streptococcus faecalis
Klebsiella pneumoniae	Shigella dysenteriae
Salmonella schottmuelleri	Staphylococcus aureus
Salmonella choleraesuis	Enterobacter aerogenes

At this level the product is also fungicidal against pathogenic fungi, Trichophyton mentagrophytes, when used as directed on bathroom, shower room or locker room floors.

Efficacy tests have demonstrated that Quantum is an effective bactericide, fungicide, in the presence of organic soil (5% blood serum).

VIRUCIDAL ACTIVITY - The product, when used on hard nonporous inanimate surfaces at 1 oz. per gallon of water, exhibits effective virucidal activity against Influenza virus type A2 (Asian) (upper respiratory), Herpes simplex virus type 1 (causative agent of fever blisters), Adeno virus type 2 (swollen glands), and Vaccinia virus (representative of pox virus).

MILDEWSTAT - To control mold and mildew on pre-cleaned hard nonporous surfaces (such as floors, walls, table tops) mix 1 oz. per gallon of water. Apply solution with a cloth, mop or sponge, making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.
