

## Butcher's Quantum Concentrated Detergent Disinfectant Deodorizer

Phenol Coefficient

78 (Staphylococcus Aureus) - AOAC.

48 (Salmonella Typhosa) - AOAC.

Quantum is a concentrated detergent, disinfectant, sanitizer, fungicide and deodorizer. It is specifically designed for institutional use such as Hospitals, Nursing Homes, and Schools, where housekeeping will be of prime importance in controlling the hazard of cross-infection from environmental surfaces.

Quantum is for use on floors, walls and other hard surfaces in Hospitals, Nursing Homes, Hotels, Public Areas, Industrial Areas and in Institutions. It is excellent for Operating Rooms, Rest Rooms, Nurseries and Food Service Areas.

When used as directed, Quantum is effective against Staphylococcus aureus, Salmonella choleraesuis and Pseudomonas aeruginosa. Quantum is also effective against pathogenic fungi, Trichophyton interdigitale.

### USE DIRECTIONS:

Use at 1 ounce per gallon of water. This product will be effective against Pseudomonas aeruginosa PRD-10 at this level.

At 1 ounce per gallon of water, this product is fungicidal against pathogenic fungi.

For best results, use Quantum as directed above with a cloth or mop and apply to walls, floors and other hard surfaces.

For heavy soil or organic matter, a precleaning step is recommended.

If used for sanitization of previously cleaned food equipment or food contact items, limit the level of active quaternaries to 200 ppm (1.4 ounce per 5 gallons of water). Food-contact surfaces must be rinsed with potable water prior to reuse.

This product when used on environmental, inanimate, hard surfaces at 1 ounce per gallon of water, is effective against Influenza A<sub>2</sub>, Herpes Simplex, Adenovirus type 2, and Vaccinia Viruses.

Rinse empty container thoroughly with water and discard.
