Butcher's High-Q2 Disinfectant Floor Restorer
DIRECTIONS FOR USE General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Butcher's High-Q2 is for hospitals, nursing homes, schools, food processing plants, food service establishments and other institutions where housekeeping is of prime importance. Use High-Q2 only on a floor that is fully-coated with a quality hard coat seal or finish.

Shake Before Using

DISINFECTION - To disinfect hard surface floors, mix 1 quart (32 oz.) of High-Q2 per gallon of water. Apply solution with clean mop, cloth or sponge. Wet surface thoroughly. Allow to remain wet for 10 minutes and to air dry. Buff surface for superior gloss and slip resistance. Prepare a fresh solution for each use.

High-Q2 is formulated to provide the cleaning, disinfecting, and restoring of hard surface floors. After air drying, buffing will produce an exceptional gloss and slip resistance.

At 1 quart (32 oz.) per gallon dilution, Butcher's High-Q2 exhibits effective activity against:

Pseudomonas aeruginosa PRD-10	Salmonella schuttmuelleri	Shigella dysenteriae
Escherichia coli	Salmonella choleraesuis	Staphylococcus aureus
Kelbsiella pneumoniae	Brevibacterium ammoniagenes	Enterobacter aerogenes
	Streptococcus faecalis	

At this level the product is also fungicidal against pathogenic fungi, Trichophyton mentagrophytes, when used as directed on bathroom, shower room or locker room floors.

Efficacy tests have demonstrated that High-Q2 is an effective bactericide, fungicide, in the presence of organic soil (5% blood serum).

MOLD AND MILDEWSTAT - Prevents and controls mold and mildew and the odors they cause on hard surfaces.
