Butcher's Bath Guard Acid-Free Disinfectant Bathroom Cleaner

Cleans, disinfects and deodorizes toilet bowls, urinals, tubs, showers and other hard nonporous bathroom surfaces. Use on porcelain, ceramic tile, grout, stainless steel, plastic, chrome, enamel.

Effective against bacteria, fungi and viruses in the presence of light to moderate organic soil. Ideal for daily bathroom cleaning in hospitals, hotels, motels, nursing homes, business buildings, restaurants, and food plants.

Kills *Pseudomonas*, *Staphylococcus*, *Salmonella*, *Trichophyton mentagrophytes* (athlete's foot fungus) and Herpes simplex type 2 virus on environmental surfaces in the presence of blood, soil, 5% blood serum.

Effective against human immunodeficiency virus (Type 1) which causes AIDS (Acquired Immunodeficiency Syndrome). Against HIV-1 this product is virucidal after 1 minute contact time in the presence of organic soil (10% blood serum). To kill other organisms listed on this label, allow surface to remain wet for 10 minutes.

DIRECTIONS FOR USE

In violation of Federal law to use this product in a manner inconsistent with its labeling.

Special Instructions for Cleaning and Decontaminating Against HIV-1 (AIDS virus) on Surfaces and Objects Soiled with Blood or Bodily Fluids

Personal Protection: When handling items soiled with blood or bodily fluids, wear disposable latex gloves, gowns, masks, and eye coverings.

Cleaning Procedure: Thoroughly clean blood or bodily fluids from surfaces before applying Bath Guard.

Contact Time: To kill HIV-1, apply Bath Guard and allow surface to remain wet for 1 minute. To kill other organisms listed on this label, allow surface to remain wet for 10 minutes.

Disposal of Infectious Materials: Blood and other bodily fluids should be disposed of according to state and federal regulations for infectious waste disposal.

Cleaning and Disinfecting Toilet Bowls and Urinals

Remove water from bowl by forcing water over trap with a swab mop applicator.
Remove excess water from swab mop by pressing against the side of the bowl.

3. Swab 2 oz. of the product evenly over the surfaces to be cleaned and disinfected.

4. Thoroughly swab surfaces, especially under the rim around the outlets.

5. Leave treatment on surfaces for 10 minutes.

6. Flush toilet. Rinse applicator thoroughly.

Preliminary cleaning of toilet bowl and urinal surfaces.

Cleaning and Disinfecting Porcelain, Ceramic Tile, Shower Walls, Floors and other Hard Nonporous Surfaces

1. Apply full strength with a cloth, sponge, mop or spray applicator.

2. Let treated surfaces remain wet for 10 minutes and rinse thoroughly.

Preclean heavily soiled surfaces before disinfecting.

For Mildew: Follow directions for disinfection. Repeat treatment every two weeks or when mildew growth first appears.

General Cleaning and Deodorizing: Mix the product 1/2 - 1/4 oz. per gallon of water for general cleaning and deodorizing of hard nonporous bathroom surfaces.

PRECAUTIONARY STATEMENT

Hazard to Humans and Domestic Animals

CAUTION

Causes eye irritation. Avoid contact with eyes, skin or clothing. Avoid contact with foods. Wash thoroughly with soap and water after handling.

STATEMENT OF PRACTICAL TREATMENT

For eye contact: Flush eyes with water for 15 minutes. If irritation occurs, contact physician immediately.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Store only in tightly closed original container in a secure area inaccessible to children and away from food or feed.

PESTICIDE DISPOSAL: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse empty container. Rinse thoroughly before discarding in trash.
