# DIRECTIONS FOR USE

### GENERAL CL. PIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

MICON 100 is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers. Prior to its use, systems must be cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 6.13 to 15.32 fluid ounces of MICON 100 per 1000 gallons of water to provide a concentration of 48 to 120 parts per million of MICON 100, based on the total weight of water in the system, is recommended. Repeat initial dosage until control is evident.

Subsequent slug additions of 1.53 to 15.32 fluid ounces of MICON 100 per 1000 gallons of water (12 to 120 parts per million of MICON 100) should be employed every 2 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleed off and the severity of the microbiological problem. Sing addition should be made in the sump of water cooling towers.

-- VICON 100 is used to control bacteria in industrial air-washing systems that maintain effective mist eliminating components. Prior to its use, systems should be cleaned to remove bacterial slime and other deposits.

An initial slig dose of 24.7 to 41.2 fluid ounces of MICON 100 per 1000 gallons of water is recommended. Repeat initial librage until control is evident, Subsequent slug additions of 16.9 to 41.2 fluid ounces of MICON 100 per 1000 gallons of water should be employed each 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleeding and severity of the bacterial problem. Slug additions may be made to the sump or to the water collection trays of the airwash system.

when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Do not use empty container. Triple rinse (or equivalent) and dispose of container in an incinerator or in an approved landfill, or bury in a safe place. Rinsate that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.

# Ecco) MICON 100

ACTIVE INGREDIENT:

Poly [oxyethylene (dimethyliminio) ethylene-(dimethyliminio ethylene

dichloride]

10.0% 90.0%

TOTAL

90.0%

This product contains 0.85 lb, of active ingredient per gallon and weighs 8.49 lb, per gallon.

EPA Reg. No. 7216-21
