BACK PANEL

VAPONA INSECT BAR

Controls flies, mosquitoes, gnats and  
other small flying insects.

Use in homes, motels, dairy barns,  
animal shelters and garbage cans

DIRECTIONS FOR USE

HOMES, MOTELS

To control flies, mosquitoes, gnats and other small flying insects, place one Vapona Bar per average size room, (10 x 10 x 10 feet) or per 100 square feet of floor area. Normally this is effective for three months. Replace strips if effectiveness diminishes.

For control of flies in garbage cans attach  $\frac{1}{2}$  Vapona Bar inside the lid of an average size garbage can (20 gallon capacity). One unit should last from one to two months. Keep lid on garbage can.

ANIMAL BUILDINGS

To control flies, mosquitoes, gnats and other small flying insects in horse barns, dairy barns, calf barns, stables, pig parlors, dog kennels, poultry house and other farm buildings, suspend one Vapona Bar (10" strip - 3.7 oz.) for each 100 square feet of floor space. If more than one strip is required, distribute them equally over area to be treated. Weather and other conditions such as strong drafts may alter the performance, but this treatment is usually effective for one season. Replace strips if effectiveness diminishes.

BACK PANEL (cont.)

WARNING: Do not use in areas where food is prepared or served. Do not use in hospital or clinic rooms, such as patient rooms, examination rooms, operating or emergency areas. Do not use in rooms where infants, the sick or aged are or will be present for any extended period of confinement. After prolonged storage, a small amount of liquid may form on strip. Do not get liquid in eyes. Wash hands thoroughly with soap and water after handling strip. Do not contaminate food, water, food containers or cooking utensils. Keep out of reach of children.

NOTICE OF WARRANTY

CROWN CHEMICALS, INC. MAKES NO WARRANTY OR MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR OTHERWISE, EXPRESS OR IMPLIED, CONCERNING THIS PRODUCT OR ITS USE, WHICH EXTEND BEYOND THE STATEMENTS ON THIS LABEL.

Use of the packaged compositions is covered by Shell's U.S. Patent 2,956,073 and by pending patent applications. Sales of these compositions carries with it no license to use such compositions for any purpose other than insecticide generators. Not to be taken internally by humans or animals.
