DIRECTIONS FOR USE

General Classification

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product, when properly used, will give effective protection against the insects and mites for which it is recommended.

Dilute this product 1 gallon to 100 gallons of water before using. For smaller quantities use 2½ tablespoons to 1 gallon of water or 1 pint to 12 gallons of water.

Do not use this product in combinations with highly alkaline materials such as lime or lime sulfur. Do not use in combinations with any other pesticide not compatible with solvent base formulations.

This product is effective for control of bagworms, canker worms, walnut caterpillars, European red mite, clover (bryobia) mite, red spider mite or two-spotted mite, six-spotted mite, strawberry mite, cyclamen mite and privet mite.

This product may be used on all species of pine, juniper, most deciduous ornamental trees and shrubs, roses, azalea, chrysanthemum, cyclamen, dahlia, lily, gardenia, gladiolus, ivy, snap dragon, and Sweet William.

Spray plants thoroughly to insure full and complete coverage of all foliage.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not store near heat or open flame. Keep container sealed when not in use.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

WARNING

MAY BE FATAL IF SWALLOWED.

DO NOT breathe spray mist. Wear a suitable respirator.

DO NOT get solution in eyes, on skin, or on clothes. If spilled on skin or clothing wash thoroughly with soap and water. Wear goggles.

KEEP AWAY from children and domestic animals.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

AVOID storage near feed or foodstuffs.

DO NOT use this product for any purpose other than those recommended on this label.

DO NOT store or use in or around the home.

DO NOT use or store near heat or open flame.

NOTICE OF WARRANTY

CROWN INDUSTRIES makes no warranty of merchantability, fitness for any purpose, or otherwise, express or implied, concerning this product or its use which extend beyond the statements on this label.

JAN 27 1984

Ms. Judith Thompson
Crown Industries,
Div. of Hopkins Agricultural Chem. Co.
P.O. Box 7532
Madison, WI 53707

Dear Ms. Thompson:

Subject: Crown Check-Pest Bagworm Hite Spray
EPA Registration No. 7273-87
Application of January 10, 1984

Your application to amend your formulation by deleting the ingredient Toxaphene is acceptable. However, you must make the following additional revisions on the label before you release the product for shipment.

- a. Delete the wording "General Classification" from the label text.
- b. All uses other than for controlling "mites" must be deleted from the label. Kelthane would not be effective against Bagworms, *and* *must not* *be* *used* *on* *fruit* *trees*.

Sincerely yours,

Jay E. Ellenberger
Product Manager (12)
Insecticide-Pesticide Branch
Registration Division (TS-767)
