GENERAL INFORMATION

Product Name: 2-2 AMINE
Type: Brush Killer
Active Ingredients: 2 LBS. 2,4-D AND 2 LBS. 2,4,5-T
Inert Ingredients: -
Manufacturer: CROWN CHEMICALS
Address: 100 Rockford Avenue, Rockford, Illinois 61083
Telephone: (319) 632-2222
Date of Manufacture: 8-1-71
Expiry Date: 8-1-72
Net Contents: 1 Gallon
Gross Weight: 10 Pounds
Pesticide Registration No.: 7273-91

2-2 AMINE BRUSH KILLER

CONTAINS

2 LBS. 2,4-D AND 2 LBS. 2,4,5-T
ACID EQUIVALENT PER GALLON

ACTIVE INGREDIENTS:

Triethylamine salt of 2,4-Dichlorophenoxyacetic Acid* .26.4%

Triethylamine salt of 2,4,5-Trichlorophenoxyacetic Acid* .29.5%

INERT INGREDIENTS: - .44.1%

* Equivalent to 8.7% or 2 pounds of 2,4-D acid per gallon and 26.4% or 2 pounds of 2,4,5-T acid per gallon.

CAUTION: KEEP OUT OF REACH OF CHILDREN

WARNING

Avoid contact with skin, eyes and clothing.

In case of skin contact, wash thoroughly with soap and warm water.

Flush eyes with clear water and get prompt medical attention.

Do not apply to or allow contact with susceptible plants such as cotton, soybeans, peanuts which are sensitive to 2,4-D. Do not apply to newly sensitive plants in the immediate vicinity.

Do not store or spill on or near food or feed-stuffs, seeds, fertilizers intended for irrigation or domestic use. Avoid the use of this product in areas where food is stored.

DO NOT REUSE CONTAINER. Destroy by burying in a safe place. Do not contaminate surface waters or groundwaters.

DIRECTIONS FOR USE

Granular 2,4-D is a convenient form of low volatile ester of 2,4-D for use in lawns, golf courses and other similar areas. It can also be used for pre-emergence broadcast weed control in corn.

CORN PRE-EMERGENCE APPLICATION ONLY. As a broadcast evenly over surface any time after planting until emergence. On 3' x 14" band over the row any time after planting until emergence. On S-till application and no more than 2.5 lbs. per acre is recommended for porous soils. Use only in the corn belt of the midwest.

LEAFY AREAS. For the control of broadleaf species such as plantain, dandelion, pigweed, apply 3 to 6 ounces per 1000 sq. ft., spread evenly around desirable flowers or shrubs. Repeat application three times on stubborn species. Weeds more than 6" in height may require two applications. Cover Dicamba, or St. Augustine grass.

WATER WEED CONTROL. For the control of aquatic weeds including Smartweed, duckweed, pondweed, and water lettuce. Apply evenly to water surface. Broadcast application. Allow 4 to 6 weeks for 100% control. Repeat application if necessary for productive pastures or crops.

For best results, mix with the herbicide desired before applying. Broadcast application depends upon the size of the area to be treated. Consult your State Fertilizer Control Officer for further information.
