

INSTRUCTIONS FOR USE

This use is intended for use in standard fogging equipment. Dilute 1 gallon of this product with 10 to 20 gallons of water or alcohol or kerosene or other suitable solvent. Apply 3 gallons per acre with standard fogging machine calibrated to deliver 10 gallons per hour at machine speed of 5 miles per hour to cover a swath width up to 300 feet. A fine spray is proper fogging machine setting. Test against a sheet of non-absorbent material 1 foot from nozzle. Barely wet is correct setting. If quite wet damage could occur to car paint, foliage, or glass. If not wet enough, satisfactory insect control will not be obtained.

Do not eat. May be fatal if swallowed. If swallowed, do not induce vomiting. Wash mouth out with soap and water after handling. Do not eat or drink or smoke. Do not get in eyes, on skin, or on clothing. Do not breathe dust. Remove clothing if soiled. Wash contaminated clothing with soap and hot water before reuse. Do not contaminate feed, water, or foodstuffs. Use only in well-ventilated areas. Do not use in confined spaces. Do not use near open flame. Do not use in areas where food is stored or where food is prepared.

This product is not for use in food areas. Do not use in areas where food is stored or where food is prepared. Do not use in areas where food is stored or where food is prepared.

INSECTICIDE 106

(For Fogging Use Only by Trained Personnel)

Use as an insecticide to aid in the reduction of flies, mosquitoes and in standard fogging equipment.

FORMULA

(Contains DDVP and Malathion)

ACTIVE INGREDIENTS:

*2,2-dichlorovinyl dimethyl phosphate	1.50
*Related compounds	.12
**Malathion	1.50
Petroleum distillate	93.38
Inert ingredients	.50

*Equivalent to 1.62 Vapona^R Insecticide TM Shell Chemical
 **0,9-dimethyl phosphorodithioic acid diethyl mercapto succinate

WARNING

KEEP OUT OF REACH OF CHILDREN

See side panel for other warnings.

DO NOT USE IN POULTRY, STORE OR SPILL NEAR HEAT OR OPEN FLAME

NOTICE

Do not reuse empty container. Do not pierce, perforate, or crush and bury or discard in a safe place away from water supply. Return drums to drum conditioner.

Keep out of any body of water. This product is toxic and will kill fish and other wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product as specified on this label.

NOTICE OF WARRANTY

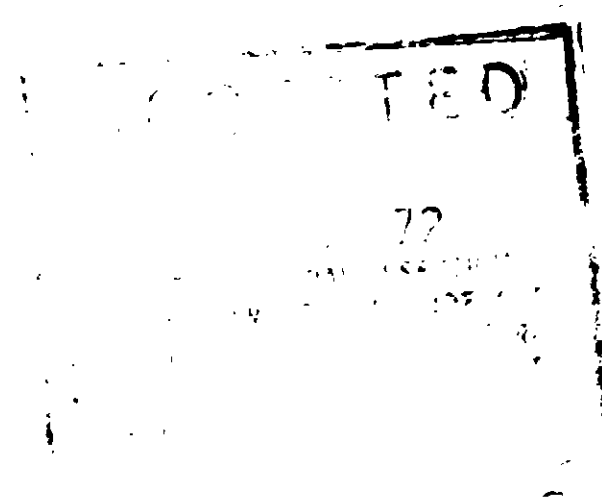

THE MANUFACTURER AND THE SELLER make no warranty of merchantability, fitness for any purpose, or otherwise, express or implied, concerning this product or its use, which extend beyond the statements on this label.

EPA Reg. No. 7273-119

DIRECTIONS FOR USE

Use as an outdoor area fog to aid in the reduction of flies, mosquitoes and gnats in standard fogging equipment. Dilute 1 gallon of this product with 5 gallons of kerosene, fuel oil, diesel oil or other suitable solvent.

A fine spray is proper fogging machine setting. Test against a sheet of non-absorptive material at approximately 15 feet from nozzle. Barely wet is correct setting. If quite wet damage could occur to foliage, car paint or to glass. If not wet enough satisfactory insect control will not be obtained. With Tifa Dynafog or similar machines the rate of application should be 40 gallons prepared solution per hour with machine moving 5 miles per hour.

CROWN
