

[7273-135]

DIRECTIONS

Place the can in the center of the area to be fogged or treated. Remove pets, birds, plants and fish from the area. Do not spray near feed, foodstuff or cooking utensils.

Place can upright on floor in center of area to be treated.

Press button to side and lock into place as shown. When discharge of insecticide starts, close area as

tightly as possible and leave closed for 30 minutes. Repeat treatments as necessary. The entire contents of this can are sufficient to treat a truck or box car with a carrying space of 5000 cubic feet.

DO NOT REMAIN IN TREAT AREAS and ventilate the area after treatment is completed.

Be careful not to spray in eyes. Sweep up and destroy fallen insects.

Do not use in nurseries or homes where infants, ill, aged or debilitated persons are housed.
