#### WHAT IS THIS PACKAGE FOR?

This package of ferti-lome WEED & WILD GRASS KILLER is for killing annual weeds and other undesirable wild grasses, and tops of perennial weeds in non-crop areas and in similar areas where unwanted vegetation exists.

#### HOW DO YOU USE IT?

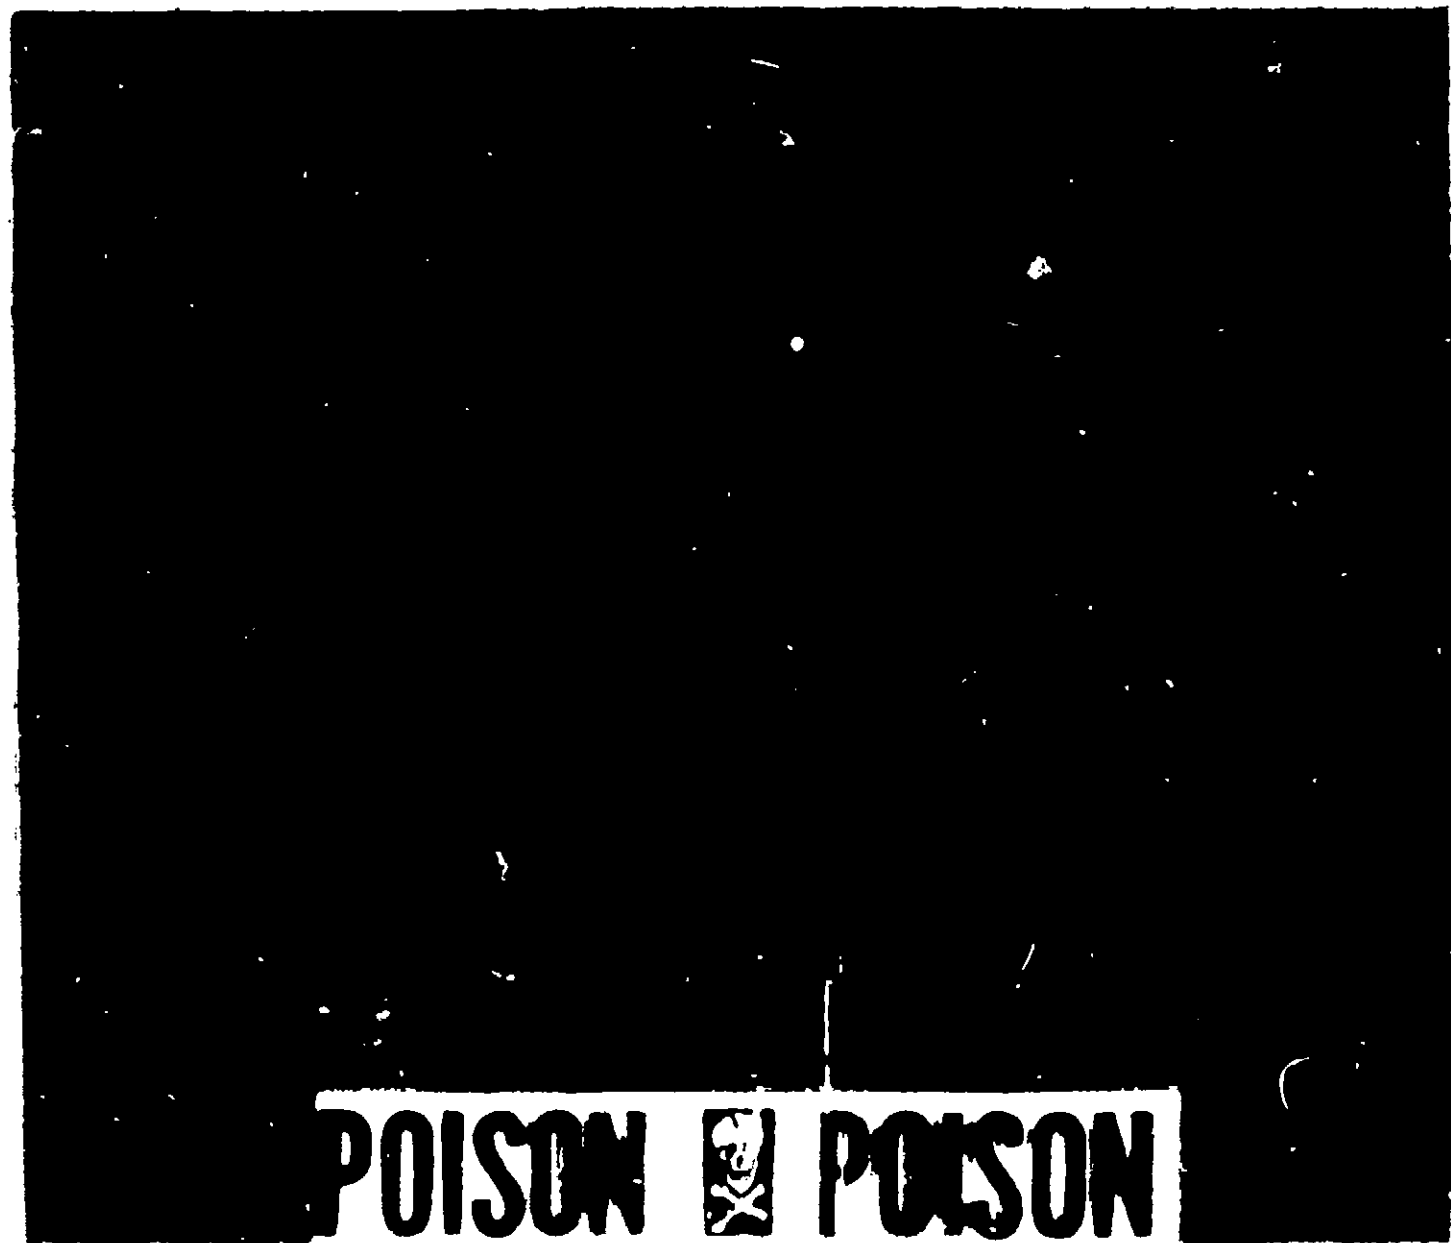

Remove cap and place on bottle the free sprayer, which comes with this package. For large area spray at rate of 1 gal. per 200 sq. ft. This product can also be used to kill grasses and weeds in driveways, around patio stones, around fence posts, around garbage cans, in sidewalk cracks and similar areas where unwanted vegetation exists. When treating the above mentioned places, spray the material on the area making sure you completely saturate the vegetation to be killed. This product can also be used as a spot treatment to kill Crabgrass, Dallis grass and other desirable wild grass, in Bermuda grass lawns. Clumps of Dallis grass, Crabgrass and other undesirable wild grass should be thoroughly saturated. Get as little of this product on your desired lawn grass as possible, because this product will kill most all kinds of desirable lawn grass except Bermuda, which is temporarily browned. Repeat application to perennial weeds and other undesirable wild grass when regrowth appears.

#### HERE ARE THE RESULTS YOU CAN EXPECT.

ferti-lome WEED & WILD GRASS KILLER when used according to directions will kill Johnson grass, Crabgrass, Dallis grass, Quack grass, Horse Nettle, Bindweed, Thistle and Knapweed, also Winter Clovers, Plantains, Dandelions, Chickweeds, Sheep Sorrel and Pennyworts. Since you don't have to do messy measuring and mixing this product is easy to use. You will find it is the easiest and most satisfactory general weed and other undesirable wild grass killer product on the market.
