**DIRECTIONS FOR USE:**

To Operate: Remove cap, aim nozzle away from you, press trigger.

FOR CONTROL OF FLIES, MOSQUITOES, BEETLE LARVAE, WYING MOTHS, FRUIT FLIES, GNATS, and other small flying insects: Close all doors and windows in the room and spray upward in all directions thoroughly misting room and hit insects where possible. Spray into corners, and other dark areas where insects usually hide. After spraying, keep room closed for at least 15 minutes. This 2.00 lb. container will effectively treat 40,000 cubic feet when used as directed.

FOR CONTROL OF COCKROACHES, KITCHEN BUG, ANT, FLYING BEET, CRICKET, and certain other crawling insects: Spray heavily fog into all hiding places, cracks and crevices, behind and under all objects in the room, on floors, and directly on all insects seen. Repeat treatment as required.

FOR CONTROL OF FLIES, WYING MOTHS, ANT, IN FOOD PLANTS, DAIRIES, GROCERY STORES, RESTAURANTS, etc.: Spray upward throughout the closed room whenever flying insects are a problem and just before closing for the day.
