

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS

DANGER

Corrosive. May cause severe skin and eye irritation or chemical burns to broken skin. Avoid contact with eyes, skin or clothing. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated. (See additional precautionary statements on front panel.)

ENVIRONMENTAL HAZARDS

Toxic to fish and aquatic life. Keep out of lakes, streams, and ponds. Treated effluent may not be discharged into lakes, streams, ponds, or public waters without a valid discharge permit. Upon guidance, contact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS

Flammable liquid. Mix only with water and sanitary utensils. Do not add this product to any dispensing device containing contents of any other product. Mixing may cause a violent reaction. May cause a fire or explosion. May react with oxidizing, organic matter. The contents will start a fire and may explode. In case of contamination on clothing, remove and seal container. If spilled, spillage should be contained, open air or water should be used. Flood area with water if necessary.

USE ONLY FOR USE

GENERAL CLASSIFICATION

For use only as directed. See Federal law to use. This product is not to be used in accordance with the following:

DANGER

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

- IF CONTACT WITH EYES OCCURS, flush with water for at least 15 minutes. Get prompt medical attention.
- IF CONTACT WITH SKIN OCCURS, wash with plenty of soap and water, get medical attention if irritation persists.
- IF SWALLOWED, drink large quantities of water. Do NOT give vinegar or other acids. Avoid alcohol. Do not induce vomiting. Call a physician immediately.

NET CONTENTS

REPACKED BY

STORAGE AND DISPOSAL

Keep this product in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

INITIAL TREATMENT

For initial treatment of water, use the following procedure: 1. Determine the volume of water to be treated. 2. Determine the concentration of the product. 3. Calculate the amount of product required. 4. Add the product to the water. 5. Mix thoroughly. 6. Allow the water to stand for the required time. 7. Test the water for residual chlorine. 8. Adjust the dosage if necessary.

DAILY MAINTENANCE DOSAGE

See dosage chart for daily application. The dosage should be added to the water in the morning and in the afternoon. The dosage should be adjusted according to the water temperature and the amount of organic matter in the water. The dosage should be adjusted according to the pH of the water. The dosage should be adjusted according to the turbidity of the water.

SUPERCONCENTRATION

For superconcentration, use the following procedure: 1. Determine the volume of water to be treated. 2. Determine the concentration of the product. 3. Calculate the amount of product required. 4. Add the product to the water. 5. Mix thoroughly. 6. Allow the water to stand for the required time. 7. Test the water for residual chlorine. 8. Adjust the dosage if necessary.

DOSAGE CHART

Water Temperature (°F)	Residual Chlorine (ppm)	Product Dosage (gallons)
50-60	1.0	1.0
60-70	1.0	1.0
70-80	1.0	1.0
80-90	1.0	1.0
90-100	1.0	1.0
