

START-UP

Specifically Formulated For Starting Up Swimming Pools.

Use **GLB BRAND START-UP** just once, then use **GLB BRAND DRY CHLORINE CONCENTRATE** to sanitize your swimming pool water.

ACTIVE INGREDIENT:
 Sodium dichloro-s-triazinetrione 47.5%

INERT INGREDIENTS: 52.5%

TOTAL 100.0%

DANGER
KEEP OUT OF REACH OF CHILDREN

See Antidote Statement and Other
Required Statements on the Back Panel

NET WEIGHT _____

DIRECTIONS FOR USE

GLB BRAND START-UP superchlorinates swimming pool water by effectively oxidizing or "burning out" organic pollutants such as pollen, leaves, organic matter from trees, growing plants, grass and other sources. GLB BRAND START-UP simultaneously provides cyanuric acid (s-triazinetrione) to stabilize chlorine. Use GLB BRAND START-UP just once to start your pool off, then use GLB BRAND DRY CHLORINE CONCENTRATE to chlorinate your pool.

GLB BRAND START-UP is not for maintaining a chlorine residual since a chlorine residual is established as a result of the use of this product; it is a conditioner which prepares the swimming pool water for GLB BRAND DRY CHLORINE CONCENTRATE and permits you to get immediate maximum chlorine effectiveness and economy.

HOW TO USE GLB BRAND START-UP

1. Clean or backwash filter.
2. Using a reliable test kit, test the pH level and adjust it to 7.2 to 7.6 (if it is above 7.6 add dry acid, if it is below 7.2, add soda ash or sodium bicarbonate).
3. In the amount shown in the table below - add GLB BRAND START-UP slowly through the surface skimmer.
4. Wait two hours and again adjust pH to 7.2 to 7.6.
5. Test chlorine residual with a reliable test kit. Do not allow swimmers in pool until chlorine residual has dropped below 2.0 ppm.

6. Add GLB BRAND DRY CHLORINE CONCENTRATE according to package directions to maintain a minimum chlorine residual of 1.0 to 2.0 ppm at all times.

GLB BRAND START-UP DOSAGE CHART		
POOL CAPACITY (gals.)	DOSAGE	
	To Provide 25 ppm Cyanuric Acid and 10 ppm Available Chlorine.	To Provide 20 ppm Cyanuric Acid and 8.4 ppm Available Chlorine.
5,000	1 lb. 7 oz.	1 lb. 3 oz.
10,000	2 lb. 15 oz.	2 lb. 6 oz.
15,000	4 lb. 7 oz.	3 lb. 8 oz.
20,000	5 lb. 14 oz.	4 lb. 12 oz.
25,000	7 lb. 6 oz.	5 lb. 14 oz.
30,000	8 lb. 14 oz.	7 lb. 1 oz.
35,000	10 lb. 4 oz.	8 lb. 4 oz.
40,000	11 lb. 11 oz.	9 lb. 7 oz.

DANGER

KEEP AWAY FROM CHILDREN

STRONG OXIDIZER. Harmful if swallowed. May irritate skin, eyes, nose and throat. Dust may be harmful if inhaled. Do not take internally. Keep out of eyes and off skin. Avoid inhalation of dust.

STORE in a cool, dry, well ventilated area. Moisture contamination may liberate irritating and hazardous chlorine-containing gases. Oxidizing material: do not mix with other chemicals. Contact with organic matter may cause fire. Burning will produce chlorine or equally toxic gases. Do not re-use container. Rinse empty container thoroughly with water before discarding.

ANTIDOTE

INTERNAL - Feed bread soaked in milk followed by olive oil or cooking oil. Call a physician.

EXTERNAL - In case of contact, remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes, get medical attention. Clean contaminated clothing before re-use.

Treated pool water should not be discharged directly into lakes, streams or ponds.
