# ENHANCE

FOR SPAS/HOT TUBS

A BROMIDE SALT SOLUTION FOR USE EXCLUSIVELY WITH A GLB ACTIVATE PRODUCT AS PART OF A SYSTEM FOR DISINFECTION OF WATER IN SPAS, HOT TUBS AND THERAPEUTIC POOLS.

ACTIVE INGREDIENT: Sodium bromide (NaBr)..... 32.16%  
INERT INGREDIENTS: ..... 67.82%

**CAUTION**  
**KEEP OUT OF REACH OF CHILDREN**

See other precautions and first aid on back panel.

4 OZ.

ENHANCE is a clear solution of bromide salts which remain as a stable bank in the spa/hot tub water until ACTIVATE is added. ENHANCE has no disinfectant properties and it is only when a GLB ACTIVATE product is added that bromine is released in water containing ENHANCE.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ENHANCE should be added when the spa/hot tub is filled and weekly thereafter to maintain a bank of bromine in the water.

First, treat the spa/hot tub water with PROTECT according to its label directions.

Then, add ENHANCE 4 oz./250 gal. directly into the spa/hot tub. Circulate the water while adding ENHANCE to assure rapid and thorough distribution.

Weekly, thereafter, add ENHANCE 1 oz./250 gal. to maintain a sufficient bank of bromine in the water.

Test the bromine residual at least once every day with a bromine/pH test kit. The bromine residual must be between 1-3 ppm for residential spas/hot tubs and 3-5 ppm for commercial installations. Heavy usage, or the length of time the spa/hot tub is in use may result in depletion of bromine and require additional dosages of ACTIVATE and/or ENHANCE to maintain the desired bromine residual. Never mix any chemicals with each other before adding to the spa/hot tub water.

Change water monthly, or as needed to maintain water quality.

CAUTION: Harmful if swallowed. Do not get in eyes. Avoid contact with skin. In case of contact flush with plenty of water for at least 15 minutes. If eye irritation persists, get medical attention. Avoid contamination of food.

Store in original container in a cool dry place. Do not reuse container. Rinse thoroughly and securely wrap original container in several layers of newspaper before discarding in trash.
