Subject: GLB Enhance
EPA Registration No. 7364-30
Application Date: February 15, 2005
Receipt Date: February 18, 2005

Dear Ms. Radtke:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is accepted with the condition listed below.

Condition

The child hazard warning statement should be moved above the signal by your next label printing.

General Comments

A stamped copy of the labeling with the condition is enclosed. Submit a copy of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please call Wanda Mitchell at (703) 308-6345.

Sincerely,

Emily H. Mitchell
Product Manager - Team 32
Regulatory Management Branch II
Antimicrobials Division (7510C)

EPA Letter Dated:

MAY 16 2005

Under the authority of the
Federal Insecticide, Fungicide,
and Rodenticide Act, 7 U.S.C.
136-136a, the following information
is provided to you: -364-30

ENHANCE® is a clear solution of Bromide salts which remain as a stable bank in the spa/hot tub water until ACTIVATE is added. ENHANCE has no disinfectant properties and it is only when ACTIVATE is added that bromine is released in water containing ENHANCE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. ENHANCE should be added when the spa/hot tub is filled and weekly thereafter to maintain a bank of bromide in the water.

First, treat the spa/hot tub with PROTECT PLUS according to its label directions. Then, add ENHANCE (4 oz./250 gal.) directly into the spa/hot tub. Circulate the water while adding ENHANCE to assure rapid and thorough distribution.

Weekly, thereafter, add ENHANCE (1 oz./250 gal.) to maintain a sufficient bank of bromide in the water.

Test the bromine residual at least once every day with a bromine/pH test kit. The bromine residual must be between 1-3 ppm for residential spas/hot tubs and 3-5 ppm for commercial installations. Heavy usage, or the length of time the spa/hot tub is in use may result in depletion of bromine and require additional dosages of ACTIVATE and/or ENHANCE to maintain the desired bromine residual. Never mix any chemicals with each other before adding to the spa/hot tub water.

Change water monthly or as needed to maintain water quality.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash with soap and water after handling.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

STORAGE AND DISPOSAL

Store in original container in a cool, dry place. Do not reuse container. Rinse thoroughly with water and discard in trash.
