RE: Notification of additional marketing bullet
7364-30

Dear Ms. Mitchell,

Attached is an application for notification of marketing text for this product. The statement will be used as a descriptive phrase on labels other than the basic label which has product specific language.

I have attached:

An application form 8570-1 for notification of a proposed statement
A label with the proposed new marketing text highlighted for your review.

If you have any questions, please give me a call. I can be reached at 1-800-558-5106 ext 328 or e-mail to mradtke@advantistech.com.

Sincerely,
GLB POOL & SPA

ENHANCE

FOR SPAS AND HOT TUBS

Alternate product description to be used
on other brands or private label:

Part one of a two-product
system for disinfection of
water in hot tubs.

A Bromide Solution for Use with GLB
Activate as Part of a System for Disinfection
of Water in Spas

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

ACTIVE INGREDIENTS:
Sodium Bromide (NaBr).....32.18%
OTHER INGREDIENTS:.....67.82%
TOTAL.....100.00%

See other precautions and first aid on back panel.
Net Contents: 32 FL. OZ. (946 ML.)

ENHANCE is a clear solution of bromide salts which remain as a stable bank in the spa/hot tub water until ACTIVATE is added. This product has no disinfectant properties and it is only when ACTIVATE is added that bromine is released in water containing this product.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product
in a manner inconsistent with its labeling.

This product should be added when the spa/hot tub is filled and weekly thereafter to maintain a bank of bromine in the water.

First, treat the spa/hot tub with PROTECT PLUS according to its labeling directions.

Then, add this product 4 oz./250 gal. directly into the spa/hot tub. Circulate the water while adding this product to assure rapid and thorough distribution.

Weekly, thereafter, add this product 1 oz./250 gal. to maintain sufficient bank of bromine in the water.

Test the bromine residual at least once every day with a bromine/pH test kit. The bromine residual must be between 1-3 ppm for residential spas/hot tubs and 3-5 ppm for commercial installations. Heavy usage, or the length of time the spa/hot tub is in use may result in depletion of bromine and require additional dosages of ACTIVATE and/or this product to maintain the desired bromine residual. Never mix any chemicals with each other before adding to the spa/hot tub water.

Change water monthly or as needed to maintain water quality.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash with soap and water after handling.

FIRST AID:

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment

STORAGE AND DISPOSAL

Store in original container in a cool, dry place. Do not reuse container. Rinse thoroughly with water and discard in trash.
