GENERAL INFORMATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR USE

Spas, whirlpools and hot tubs with visible algae growth receive an initial dose of 4 to 6 fluid ounces of **GLB HOT WATER ALGICIDE** per 500 gallons of water. For treatment of a freshly cleaned and foed spa, whirlpool or hot tub, add initially 2 to 4 fluid ounces of **GLB HOT WATER ALGICIDE** per 500 gallons of water. Subsequent additions of 1 to 1 1/2 fluid ounces should be made every 5 to 7 days after initial treatment for main treatment.

GLB HOT WATER ALGICIDE is compatible with those chemicals normally used to treat spas, whirlpools and hot tubs and is effective at both acid and alkaline pH. **GLB HOT WATER ALGICIDE** can be used in spas, whirlpools and hot tubs treated with bromine tablets and may replace the amount of these tablets normally required. However, combine **GLB HOT WATER ALGICIDE** with concentrated bromine liquid chlorine products.

**PRECAUTIONARY STATEMENTS HAZARDS
TO HUMANS AND DOMESTIC ANIMALS**

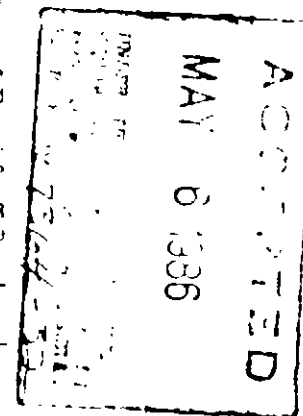

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, or water, or if these are not available, drink large quantities of water. Avoid further food or physical exertion.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, ponds, rivers, and streams. Do not apply directly to water, to areas where water is being collected, or to areas adjacent to water. Do not apply directly to the riparian zone of the Environment Protection Agency.

STORAGE AND DISPOSAL: Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded or flushed. Flush spas with clear water. All pesticides should be kept out of reach of children and far away from food.

DISPOSAL: Do not reuse empty container. Wrap up container and place in trash.
