

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (75-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

DATE OF ISSUANCE

7364-45

AUG 27 1995

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Tabex Chlorinating Concentrate
Granular

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Great Lakes Biochemical Co., Inc.
6120 W. Douglas Avenue
Milwaukee, WI 53218

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. On the left panel under the "Precautionary Statements" add a colon (:) after the word "Danger" and a period (.) after "Corrosive".
2. Include the following re-entry statement: "Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine".

A stamped copy of the product label is enclosed for your records.

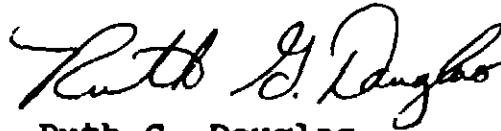

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER CORROSIVE: Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles or face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS:

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID:

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.
IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention.
IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.
IF SWALLOWED: Drink promptly large quantities of water. Avoid alcohol. Note to physician: Probably mucosal damage contraindicate the use of gastric lavage. Get medical attention.

MORE FUN / LESS WORK FOR POOL OWNERS

Chlorinating Concentrate

ACCEPTED with COMMENTS in EPA Label Listed:

AUG 1993 **GRANULAR**

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

7364-45

Active Ingredient: Sodium Dichloro-s-triazinetriene 99%

Inert Ingredients: 1% (Available Chlorine 62%)

KEEP OUT OF REACH OF CHILDREN DANGER

See other precautions and first aid on back panel

DIRECTIONS

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABEL DIRECTIONS.

This product is a stabilized concentrate that provides effective control of bacteria and algae. For the convenience of pool owners, it is available in a prepackaged automatic feeder that uses our 3

1. Adjust the pool water pH and total alkalinity to be determined by a suitable test kit.
2. Stabilize pool water with a stabilizer directed on the container label. Add Chlorinating Concentrate to maintain any needed makeup condition.
3. Shock treat the pool water with Chlorinating Concentrate 1-1/2 ounces per 10,000 gallons of pool water to maintain the chlorine level.
4. Maintain a free available chlorine level (as determined by a suitable test kit) of 1-1/2 ounces per 10,000 gallons of pool water each 10,000 gallons of pool water (as determined by a suitable test kit) or more to maintain proper chlorine level.
5. Shock treat your pool at least once a week (often in sunbelt regions) to maintain the chlorine level above. During hot weather, shock treat your pool weekly to maintain clarity and reduce cloudiness and algae growth.

STORAGE AND DISPOSAL:

Keep this product dry in a tightly sealed container until ready for use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of fire, use water to cool the container (if possible) and flood the area with water to dissolve all material. Do not reuse empty container. Do not place in trash collection. Do not use for storage or disposal, or cleaning.
