Subject: Tabex 1" Chlorination Tablets
EPA Reg. No. 7364-57
Application Dated: February 20, 2010
Receipt Date: February 25, 2010

Dear Ms. Radtke:

The following notification submitted in connection with registration under the provisions of PR Notice 98-10, Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(c)9 is acceptable.

Proposed Notification:

- Precautionary statement revision in response to EPA letter, dated 7/16/09.

Comments:

Based on a review of the material submitted, the following comments apply:

This application for notification to add appropriate precautionary statement language, as referenced above, is acceptable. A copy has been placed in our records for future reference.

Should you have any questions or comments concerning this letter, please contact me at Henson.Wanda@epa.gov or call (703) 308-6345.

Sincerely,

Wanda Henson
Acting Product Manager (32)

Re: Approval Conditions
 Approved letter dated 7/16/09
 7364-57- Tabex 1" Chlorination Tablets

Attn: Wanda Henson

Dear Wanda,

This letter is to address the condition on the approved letter dated 7/16/09 regarding the appropriate respiratory protection required on the product label.

I looked on other recently approved labels in PPLS and found the Precautionary Statements to read the same as our label language approved as recent as Feb, 2009 by your department. I have listed below the list of product numbers that have the identical Precautionary Statements as I have proposed on my original submittal in May and on a resubmittal in July. 1258-1273, 1258-1075, 1258-905, 5185-502, 9215-7, 11411-8, 57787-31, 69470-28, 71654-12 all have the same Precautionary Statement as I proposed. I have 2 other swimming pool products with the same active that approved with this language recently.

Appropriate Respiratory Language according to other identical products is:

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive. Causes irreversible eye damage. Cause eye and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Causes burns to digestive tract. Irritating to nose and throat.

- Open in a well ventilated area. Do not breathe dust or vapor.
- Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.
- Remove contaminated clothing and wash before reuse.

This language is as listed in the Chlorinated Isocyanurate EPA RED on pg 15.
We look forward to your acceptance of the language above as appropriate respiratory language.

Regards,

Marianne Radtke
Regulatory Affairs Manager

DANGER

Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. {Optional – for use on residential use swimming pool products} [Do not remove floater or other dispensing device from water for an extended period of time if it contains a tablet or tablet residue] {The following optional statement is for use on residential use swimming pool and spa products.} [Do not mix this product with a small amount of water. Only add directly to your pool.] Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed.

Read all precautionary statements [on back label] and first aid statements before use.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

MASTER LABEL

PRECAUTIONARY STATEMENTS**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive. Causes irreversible eye damage. Cause eye and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat.

- Open in a well ventilated area. Avoid breathing dust and fumes.
- Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.
- Remove contaminated clothing and wash before reuse.

PHYSICAL AND CHEMICAL HAZARDS:

DANGER. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water.

- [Do not mix this product with a small amount of water. Only add this product directly to your pool.] {This statement will appear on Pool use labels only.}
- Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

- Keep all foreign matter, including other water treatment products, away from this product.
- Use only clean dry utensils to dispense this product.
- Do not allow this product to contact other water treatment products. If used in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer.
- Avoid spilling this product.

Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

- Store in a cool, dry, well ventilated area away from heat or open flame.

Strong oxidizing agent. This product can increase fire intensity.

- Keep away from heat and from flame and burning material. Remove if possible.

{First sentence of paragraph below for 50 lb. containers or less; complete paragraph for all other sizes}

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic organisms.

Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE & DISPOSAL:

{Nonrefillable container - household/residential use}

[Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to

MASTER LABEL

- Contains no calcium

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reentry into treated swimming pools is prohibited above chlorine levels of 4 ppm.

FOR CONTINUOUS DAILY CHLORINATION:

Before the first use of this product, be sure to take the following steps:

1. Adjust the pH value of the pool water to between 7.2 and 7.8 as determined by a suitable test kit and adjust the Total Alkalinity to 100 ppm.
2. Stabilize the pool water to at least 30 ppm with [BRAND] Stabilizer as directed on the container label. Regular use of [product name] [this product] for daily chlorination will provide any needed makeup stabilizer.
3. Superchlorinate (shock treat) the pool water to oxidize organic contaminants. Follow the label directions. Before using the pool, be certain the chlorine level returns to 1.0 – 1.5 ppm.
4. Once you complete 1, 2, and 3 above, use this product to maintain the free residual chlorine at a safe and efficient 1.0 – 1.5 ppm at all times as determined by the daily or more frequent use of a suitable test kit.
5. Using a feeder, floater or skimmer dispenser, immerse one tablet (or as many as required to continuously maintain the safe free available chlorine level) for each 450 to 900 gallons of pool water.

NEVER ADD THESE TABLETS DIRECTLY INTO THE SWIMMING POOL, AS DISCOLORATION OF THE POOL LINER OR FINISH MAY OCCUR.

Superchlorinate or shock treat your pool water at least twice monthly (more often in warmer climates) during hot weather and peak bather loads using [brand shock]. Failure to shock treat regularly can result in the growth of algae in your pool.
