| NAME OF PESTICIDE PRODUCT Spa 56 Concentrated Chlorination Granules | | |

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Leisure Time Chemical Corporation
 5800 Ayala Avenue
 Irwindale, CA 91706

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(B) provided that you:

1. submit or cite all data required for registration/reregistration
2. you market under FIFRA sec. 3(c)(5) when the Agency requires all instances of similar products to submit such data.
3. you use the name "Spa 56 Concentrated Chlorination Granules" on the product for shipment.
4. submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(c). Your release or shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

- 1) Chlorinate: Add 1/2 oz. Spa 56 Concentrated Chlorinating Granules per 500 gallons of water to the water prior to entering the spa. Wait 5 minutes then check chlorine residual. Residual chlorine must read between 2 to 3 ppm. If it does not, additional dosages of material should be added until it does. Once the chlorine residual is established in the 2 to 3 ppm range, the spa or hot tub may be entered.
- 2) Maintain: Spa 56 Concentrated Chlorinating Granules should be added daily or as necessary to maintain 2 to 3 ppm residual chlorine. Frequent checks should be made of residual chlorine using a reliable test kit. Spa 56 Concentrated Chlorinating Granules should be broadcast over the surface of the water and allowed at least 5 minutes mix time before sampling. Note: heavy bather usage or the use of oils or lotions may increase the chlorine demand of the spa or hot tub resulting in the need for more frequent checks of chlorine residual.
- 3) Check pH: pH should be monitored with a reliable test kit and maintained at 7.2 to 7.8 range for clean, sparkling water. pH can be decreased by adding a suitable agent such as sodium bisulfate or increased by adding a suitable agent such as sodium bicarbonate.
- 4) Superchlorination: It is good practice to superchlorinate each 2 to 4 weeks. To superchlorinate add 1 oz. of Spa 56 Concentrated Chlorinating Granules for each 500 gallons of water. Thoroughly clean spa, vacuum and cycle through filter. Resume program when chlorine residual reads 2 to 3 ppm.

HOW TO CALCULATE SPA CAPACITY

| Shape of Spa or Hot Tub | Gal. of Water (Dimensions in ft.) |
|--------------------------|---|
| Rectangular | Average depth x average width x 7.5 |
| Circular | Diameter x diameter x average depth x 5.9 |
| Oval with straight sides | Width x length x average depth x 6.7 |
| Irregular | Consult spa or hot tub manufacturer |

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container. If possible and flood with large amounts of water to dissolve all material before discarding. Do not reuse empty container. Wrap container and put in trash. Do not contaminate water, food or feed by storage or disposal.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER: Highly corrosive. Causes irreversible eye damage. Causes burns to skin. Irritating to nose and throat. May be fatal if swallowed. Will burn with the evolution of chlorine and equally toxic gases. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with NPDES Permit. For guidance contact the regional office of EPA.

PHYSICAL OR CHEMICAL

HAZARD: Strong oxidizing agent. Will burn with the evolution of chlorine and equally toxic gases. Contact with water slowly liberates irritating and hazardous chlorine-containing gases. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. In case of fire, if possible isolate container in open air or well ventilated area. Flood with large volume of water. In case of contamination of decomposition, do not reseal container.
