Subject: Spa 56 Concentrate Chlorinating Granular
EPA Registration No. 7364-80
Application Date: October 29, 2005
Receipt Date: November 4, 2005

Dear Ms. Radtke:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification

- Correct "Available Chlorine" on label

General Comments

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Y. Henson
Product Reviewer (32)

Re: Alternate Source of Supply
 EPA Reg. No. 7364-80
 Spa 56 Concentrate Chlorinating Granular

Attached is an application for notification of an error in the amount of available chlorine on the approved label dated 2/9/2007 for the above referenced product. This should read 56% Available Chlorine. A label is attached with the requested change highlighted. As stated on the form no other changes have been made to any part of the product labeling.

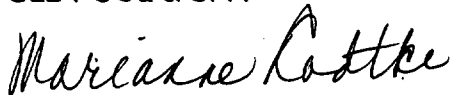

Enclosed you will find:

- Form 8570-1 for Notification
- Currently approved label with the error highlighted
- 3 copies of correct label with change completed

If at all possible could I please get an approved label of the change for state files. Thank you for you help in this matter.

Sincerely,

GLB POOL & SPA

Marianne Radtke
Regulatory Affairs Manager

SPA 56 CONCENTRATED CHLORINATING GRANULES

7364-80

ACTIVE INGREDIENTS:

Sodium Dichloro-s-Triazinetrione Dihydrate..... 99.0%

OTHER INGREDIENTS:..... 1.0%

TOTAL 100.0%

Available Chlorine.....56%

FIRST AID:

IF SWALLOWED: Call a poison control center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

KEEP OUT OF REACH OF CHILDREN DANGER

See other precautions and first aid on back panel.

Net Wt.: 2 LBS. (907 Grams)

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes irreversible eye damage. Causes burns to skin. Irritating to nose and throat. May be fatal if swallowed. Will burn with evolution of chlorine and equally toxic gases. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Wash thoroughly with soap after handling. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARD: Strong oxidizing agent. Will burn with the evolution of chlorine and equally toxic gases. Contact with water slowly liberates irritating and hazardous chlorine containing gases. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. In case of fire, if possible isolate container in open air or well-ventilated area. Flood with large volume of water. In case of contamination or decomposition, do not reseal container. **KEEP THIS AND ALL OTHER CHEMICALS OUT OF REACH OF CHILDREN FOR THEIR SAFETY.**

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition isolate container if possible and flood with large amounts of water to dissolve all material before discarding. Do not reuse empty container. Wrap container and put in trash. Do not contaminate water, food or feed by storage or disposal.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CHLORINATE:

FOR REGULAR DOSAGE; Use This Direction:

1. Add 1/2 oz. of this product per 500 gallons of water to the water prior to entering the spa. Wait 5 minutes then check chlorine residual. Residual chlorine must read between 2 to 3 ppm. If it does not, additional dosages of material should be added until it does. Once the chlorine residual is established in the 2 to 3 ppm range, the spa or hot tub may be entered.

FOR PREMEASURED PACKETS: Use This Direction:

1. Add .25 (1/4) oz. (one (product name) dissolving packet) of this product per 250 gallons of water. Wait 5 minutes, then check chlorine residual. Residual chlorine must read between 2 to 3 ppm.
2. **Maintain:** This product should be added daily or as necessary to maintain 2 to 3 ppm residual chlorine. Frequent checks should be made of residual chlorine using a reliable test kit. This product should be broadcast over the surface of the water and allowed at least 5 minutes mix time before sampling. Note: Heavy bather usage or the use of oils or lotion may increase the chlorine demand of the spa or hot tub resulting in the need for more frequent checks of chlorine residual.
3. **Check pH:** pH should be monitored with a reliable test kit and maintained at 7.2 to 7.8 range for clean, sparkling water. pH can be decreased by adding a suitable agent such as sodium bisulphate or increased by adding a suitable agent such as sodium bicarbonate.
4. **SUPERCHLORINATION:** It is good practice to superchlorinate each 2 to 4 weeks. To superchlorinate, add 1 oz. of this product for each 500 gallons of water. Thoroughly clean spa, vacuum and cycle through filter. Resume program when chlorine residual reads 2 to 3 ppm.

HOW TO CALCULATE SPA CAPACITY

Shape of Spa or Hot Tub
Rectangular
Circular
Oval with straight lines
Irregular

Gallons of Water (Dimensions in
Average depth x average width x 7.5
Diameter x diameter x average depth x 5.9
Width x length x average depth x 6.7
Consult spa or hot tub manufacturer

4/5

7364-80 – Spa 56 Chlorinating Concentrate Granular

- Destroys organic contaminants
- Eliminates chlorine odor
- Restores water clarity
- Fast Acting
- Quick Results
- Kills bacteria, controls algae, controls organic contaminants
- Maintains clean, clear, sanitized water
- Restores clean, clear, sanitized water
- No residue
- No sediment
- Sanitizes and disinfects spa water
- Convenient pre-measured dose
- No Chlorine Dust
- No residue or sediment
- Sanitizes and disinfects
- Kills bacteria
- Fast - Easy - Effective
- 68 Dissolving Spa Shock Packets
- 68 water soluble packets

Why You Should Use This Product:

This product is an effective shock that protects spa water against chlorine loss optimizing spa usage and comfort with no sediment. This product is convenient and easy to use to control the growth of algae, kill bacteria and destroy organic materials. For crystal clear spa water, follow our 4-step spa care program; Step 1: Test and adjust spa water balance, Step 2: Chlorinate and clarify, Step 3: Shock treat your spa at least once a week, and Step 4: Add algaecide regularly.

Additional shocking to keep water clean and clear is recommended after

- High number of bathers
- Increased water temperature
- Increased frequency of spa usage

FOR USE ON PREMEASURED PACKETS:

NOTE:

- Do not handle these (product name) with wet hands.
- Do not open individual (product name) packets. Packets dissolve when added to water.
- Do not enter water if over 3 ppm chlorine is indicated
- Do not overdose. This products (product name) convenient single dose packet should help prevent over dosing your spa.
