Subject: Label Amendment – Change “Manufactured by or for:” to “Sold by”, update company name and address, add “SHAKE WELL BEFORE EACH USE” to the Directions for Use and add and remove optional marketing content.
Product Name: Algimycin 3000
EPA Registration Number: 7364-102
Application Date: 08/20/2019
Decision Number: 565575

Dear Ms. Holcomb:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Page 2 of 2
EPA Reg. No. 7364-102
Decision No. 565575

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Stacey Grigsby by phone at 703.305.6440, or via email at grigsby.stacey@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Stacey Grigsby".

FIRST AID:

IF IN EYES: Hold eyelids open and rinse slowly with water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give any thing by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Causes eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes. Avoid breathing vapor. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

{Environmental hazards statement for end-use products in containers less than 5 gallons (liquid) use only the first sentence; all others use the full paragraph.}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

IN CASE OF SPILL: Avoid release to the environment. Do not flush to sewer. Contain and/or absorb spill with inert material (e.g. sand, vermiculite).

STORAGE AND DISPOSAL

{Nonrefillable -Household/Residential}

Keep this product dry in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Offer for recycling. If not available, discard in trash.

{Refillable-Household/Residential}

Keep this product dry in its tightly closed container when not in use. Refillable container. Refill this container with this product only. Do not use this container for any other purpose. Final Disposal, Offer for recycling. If not available, discard in trash.

{All commercial use containers \geq 5 gallons}

Do not contaminate food, feed, or water by storage or disposal.

Pesticide Storage: Keep this product dry in its tightly closed container when not in use.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved disposal facility.

{Nonrefillable}

Container handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling. If not available, puncture and dispose of in a sanitary landfill or by other procedures allowed by state and local authorities.

{Refillable}

Container handling: Refillable container. Refill this container with this product only. Do not use this container for any other purpose. For final disposal, triple rinse (or equivalent). Then offer for recycling. If not available, puncture and dispose of in a sanitary landfill or by other procedures allowed by state and local authorities.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[For best results, follow a weekly routine with the [BAQUACIL®] [brand] System [or BAQUACIL® CDX™ System]. Consult with your Authorized [BAQUACIL®] [brand] Dealer for advice on the system that best suits your pool and lifestyle. Take a pool water sample to your Authorized [BAQUACIL®] [brand] Dealer regularly for a detailed water analysis.]

SHAKE WELL BEFORE EACH USE

For maximum effectiveness, pools with a large amount of algae present must be cleaned prior to using this product. Pools having visible algae growth must be treated with 32 [fluid ounces][fl. oz.] per 10,000 gallons of pool water. After 24 hours, the algae debris must be removed by standard cleaning procedures, including brushing loose algae spots, vacuuming the pool and backwashing the filter.

For treatment of a freshly cleaned and filled pool, add 18 [fluid ounces][fl. oz.] per 10,000 gallons of pool water. To maintain pools free of visible algae growth, add 6 [fluid ounces][fl. oz.] per 10,000 gallons of pool water every week after the initial treatment. Apply this product directly to the pool water with the circulation system turned on. Allow ample time for product to be distributed before turning off the pump.

This product is compatible with other chemicals commonly used to treat swimming pools and it is effective in both acid and alkaline pH ranges. It can be used in pools treated with chlorine chemicals, and its use may reduce the amount of these chemicals required.

Compatible with bromine, chlorine, salt water, ozone, biguanide and minerals.

IMPORTANT NOTE: Always apply chemicals separately. Never combine them.

{BEGIN OPTIONAL MARKETING CONTENT}

Clears pool water
Compatible with biguanide pools
Compatible with PHMB pools
Controls all pool algae types
Controls green, yellow and black algae
Controls persistent algae
Easy-mix formula
Easy-shake formula
Effective treatment against green, yellow and black algae
For persistent algae
For use with PHMB pools
Good for all pool surfaces
Ideal for use in salt pool systems
Ideal for use with salt chlorine generators
Kills algae and clears pool water
Long lasting protection from algae
[New] {to be used for 6 months}
[[New &] Improved] [Formula]
[Now] Easier to Mix
Produces long-lasting protection from algae
Provides long lasting protection from all [pool] algae [types]

{or}

Treats persistent algae
Two [visible] layers of [algae] protection
