

PRODUCT DESCRIPTION: Aqua Chem® Black-Out granules are a potent way to destroy all types of algae growth on plaster pool surfaces. It is especially effective against black algae because it can be applied directly to the bare spots which normally occur with this type of growth.

IMPORTANT NOTES

1. Use this product ONLY on white plus or pool surfaces. It can bleach or damage painted surfaces or vinyl or fiberglass materials. When in doubt, check with your pool builder or manufacturer.
2. When applying this product on surface near water, vents and outlets, shut off pump before application and wait until granules have dissolved completely.
3. Never allow swimmers in pool until all granules have dissolved and water has been tested for a residual chlorine level no higher than 3.0 parts per million (ppm).

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling.

BEFORE YOU BEGIN

1. Make sure all pool equipment is working properly, including pump, filter, skimmer and heater. Backwash filter following manufacturer's directions.
2. Check residual chlorine level with an Aqua Chem Test Kit. Desirable range is 1.0-1.5 parts per million (ppm). If necessary, add Aqua Chem Stabilizer Granules or Aqua Chem Liquid Chlorinator according to label directions until the chlorine residual reaches desired level.
3. Also check water pH (acidity/balance) with an Aqua Chem Test Kit. Water pH should be 7.2-7.6. If not, adjust by adding Aqua Chem pH Decreaser to lower pH or Aqua Chem pH Add to raise pH. Be sure to follow product directions.

NOW USE AQUA CHEM BLACK-OUT

1. On horizontal surfaces, add Aqua Chem Black-Out granules to algae spots, covering them completely. For application on vertical or sloping pool surfaces, use Aqua Chem Black-Out granules in cloth bundle or old sock and scrubs with string against affected area. Do not add Aqua Chem Black-Out to pool skimmer.
2. Wait approximately 24 hours or until Aqua Chem Black-Out granules have dissolved completely. Brush (power) spots with medium grit wet/dry emery paper to stiff brush.
3. For large surface areas heavily covered with algae spots, this product may be spread over surface at a rate of 1 pound per 1000 gallons of pool capacity. (When using this application method, guard against excessive skin contact with product. See Physical and Chemical Hazards statement and "Danger" statement elsewhere on this label.)
4. Always recheck water for correct chemical levels after using Aqua Chem Black-Out. Adjust levels as necessary and follow all product directions before allowing swimmers to use pool.

PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on cloth.

Grow Group, Inc.

2501 Mail Avenue
City of Commerce, California 90040

ing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IF SWALLOWED: Drink promptly a large quantity of water. Do not induce vomiting. Avoid alcohol. Call a physician immediately. **IF ON SKIN:** Brush off excess dry chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. **IF IN EYES:** Flush with cold water for at least 15 minutes. Obtain medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

**IN THE EVENT OF A MEDICAL EMERGENCY
CALL COLLECT 1 800 873 5718**

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS/STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. In case of contamination or decomposition, do not reuse container. If possible, recycle container in open air or well-ventilated area. Flood with large volumes of water if necessary.

STORAGE AND DISPOSAL: Keep this product in tightly closed original container when not in use. Store in a locked, cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container, but place in trash collection bin and contact local health or lead by storage of disposal or cleaning of equipment.

NOTE: This product is sold by weight. Settling of contents during storage and handling will occur.

If you have any questions or comments about Aqua Chem products or their use, please call us toll free in the continental U.S. at 1 800 232 POOL. Ask for your local pool store distributor. (PA REG. NO. 7366 21) (PA REG. NO. 7366 21) (PA REG. NO. 7366 21) (PA REG. NO. 7366 21)
