# ALGAE CONTROL

FOR SWIMMING POOLS

MADE IN U.S.A.

**DANGER:** Keep Out of Reach of Children.

## Georgia-Pacific Algae Control

GP ALGAE CONTROL is a fast-acting algicide for swimming pools. It kills algae and prevents regrowth.

### DIRECTIONS FOR USE

- 1. DILUTE with water to 1% solution. The amount of water to be added is determined with reference to the following table.
- 2. Measure out the correct amount of GP ALGAE CONTROL and add to the swimming pool.
- 3. Stir thoroughly.
- 4. Allow 24 hours for the algae to die.
- 5. Filter the pool water.
- 6. Repeat the treatment if necessary.
