Light Blue:

ORANGE SOLUTION

Shake well before using. Lift off protective cap. Hold container upright, point nozzle away from you. Press valve and spray in air. Do not spray on foods or within 2' of surfaces.

General Uses

To destroy cooking, bathroom, garbage, pet, sickroom odors and tobacco smoke, spray in air sparingly. Leaves air refreshingly scented and sanitized for hours.

Helps reduce danger of air-borne transmission of disease by reducing bacteria count in air.

To sanitize air, spray 15 to 20 seconds for average room (12' x 12' x 9'). Temporarily reduces bacteria count in air, reduce danger of infection by air-borne bacteria and virus. Spray air four times daily - more often if windows are open. Four sprays a day (follow directions) are recommended except where air is agitated or changed frequently. Best results are obtained where relative humidity is 20% or more at normal room temperature. If lower, add moisture.

Warning: Contents under pressure.

Avoid exposure to prolonged sunlight or heat may cause bursting. Do not puncture or throw into fire. Keep away from children.
