DISINFECTANT CLEANER

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Use for cleaning and disinfecting hard non-porous inanimate environmental surfaces, on walls, floors, appliances and furnishings. Do not use on food contact surfaces.

For Cleaning: Depending on soil level of area to be cleaned, use 3-12 oz per gallon of water. Apply solution with a clean mop or sponge. Prepare fresh solutions daily. Do not reuse solutions. Discard solutions when they become visibly soiled.

For Disinfecting: For one-step cleaning and disinfecting, use 7 1/2 oz per gallon of water for light to medium soiled areas. For heavily soiled areas, pre-clean as described above, then disinfect with 6 oz per gallon of water. For disinfection, allow wet surfaces to be treated and allow to remain moist for at least 10 minutes to assure proper germicidal action. To control mildew, repeat every seven days or when new growth appears.

For Bleaching: For garbage cans and similar refuse areas, pre-clean areas as described above. Then apply a wetting concentration of 16 oz per gallon of water.
