

DIRECTIONS FOR USE IN ANY TYPE SPRAYER

For use in non-crop areas such as fence rows, industrial sites, storage yards and rights of way.

FOR NOXIOUS WEEDS such as annual saw-thistle, beggar ticks, bitterweed, bull-thistle, burdock, cocklebur, dandelion, fan-weed, heal-all, hedge-nettle, henbit, jimson-weed, lambs-quarters, pennywort, milk-purshane, mustards, pigweeds, plantains, poison hemlock, puncture-vine, prairie, ragweed, wild licorice, wild radish and star-thistle. Apply when weeds are growing vigorously.

Dilute at the rate of one part Weed & Brushoff to 100 parts of water and apply as a coarse spray.

For small areas, mix one teaspoon of Weed & Brushoff to one quart of water and apply as a coarse spray to cover about 50 square feet. For large areas, mix one gallon Weed & Brushoff in 100 gallons of water. Coverage about one acre or 40,000 sq. ft. Injury may occur when this product is used at these rates on Carpet, St. Augustine, Bermuda or other creeping grasses. Use only on established grasses.

FOR WOODY WEEDS AND BRUSH poison ivy, sumac, honeysuckle, poison oak, brambles, briar, buckbrush, salt cedar, chokecherry, wild cherry, cottonwood, box elder, mulberry, orange orange, poplar, raspberry, cherry tree, sycamore, trumpet vine, willow and witch hazel. Mix at the rate of one part Weed & Brushoff to 50 parts of water and apply as a coarse spray and wet the plants thoroughly when in full leaf.

For small areas, mix one quart of Weed & Brushoff in 12 gallons of water, and for large areas, mix one gallon Weed & Brushoff in 50 gallons of water. Spot spray after six weeks if necessary.

FOR STUMP TREATMENT Mix one gallon Weed & Brushoff in 20 gallons of diesel oil or fuel oil and spray thoroughly over tops and sides of stump at any time.

Do not graze dairy animals on treated areas within 6 weeks after application. Do not graze meat animals on treated areas within 2 weeks of slaughter.
